Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Justin Time features a little boy, Justin, who wants very much to master his destiny, have great adventure and solve problems. He begins with a problem that vexes him and daydreams his way into an adventure that takes him to different places around the world, but also provides him with an experience that helps him solve his problem with he returns home. While on the adventure he is accompanied by Olive, a imaginary playmate, and Squidgy the morphing flying sponge, who provide commentary and comedy along the way. Justin's lessons involve learning, for example, that it takes focus to achieve success, failure can teach what we need to do to succeed next time or when one path to solve a problem doesn't work, you can find another way to get to your goal. Justin is all about self-directed learning from the young child's perspective and imagination.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	An aggregate of 10.5 hours of Core programming aired during 4th quarter 2012 on Channels 7.1, 7.2 & 7.3. **The November 24th episode of Noodle Doodle was moved to 4pm on November 24th to accommodate a special local program broadcast. Due to a NBC sports programming overrun between 4pm and 4:30pm, Noodle Doodle was preempted without an opportunity to reschedule which was beyond KTVB's control and therefore should not be counted against the Core status. KTVB works diligently to get preemptions rescheduled, but sometimes it just is not possible.
