Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Ruff Ruff, Tweet, and Dave [RRTD] is a preschool adventure/activity show where the lead characters travel to faraway lands to have adventures with their guide, a hamster named Hatty. Ruff Ruff, the dog, is the most playful of the three; Tweet is a little bird who loves to fly and get creative with her suggestions; and Dave the Panda has a thing for bananas. RRTD might go to the beach, or the mountains, or to strange lands with pillows everywhere; just the sort of place where imagination and logic come together. The settings are always brightly colored and beautiful. And their transport vehicles are Roly-pods, artful go-carts that fit on a spiral ramp that folds in and out of the Spin-Again, a colorful round spinning top with special compartments designed to anchor each vehicle right on the outside rim during the journey.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast is based on the book series by author and illustrator Bob Kolar and is set on a space station in an unknown solar system. The station is populated by five animal characters and one 3-eyed octopus of unknown derivation. Each episode begins with an everyday conversation or incident that grows into a predicament of some sort needing a solution. While these predicaments take place on a space station populated by animal characters and aliens from different galaxies, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to: keep track of things that belong to you, practice good habits, clean up a space when you've made a mess, rebound from a failure or embarrassing incident, or resist the urge to blame others for your mistakes.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Clangers is a beloved British series that was originally conceived by Oliver Postgate in 1969 and has been reconceived and invigorated by his son, Daniel Postgate. The show features the Clanger family, small mouse-life creatures that live on Clanger Planet far away from Earth. The members of the family are presented with many unusual challenges that become the center of a dilemma that must be resolved within each episode. Strange visitors arrive out of nowhere and Clangers have to figure out who the visitors really are and why they are on Clanger Planet. Sometimes they need to help or rescue someone who has become lost on the planet. Other times, they are trying to understand outer space: meteors and comets and eclipses of the sun or moon. Each member of the family has a forte, from playing music to knitting or gardening or inventing equipment that comes in handy for some of the problem solving that takes place.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Earth to Luna is a Brazilian animated series specifically aimed at teaching 2-5 year old children how to ask questions about nature and science and vigorously pursue the answers. The show encourages curiosity, research and critical thinking. Each episode of the show is focused on a particular creature, object or phenomenon that would be of interest to the target audience. For example, Luna might wonder how she can grow a plant without a seed and finds the answer through her inquiry process. The characters, Luna, Jupiter (her brother,) and Clive (their pet ferret) embark on a research effort that takes the audience through each step that answers their over-arching question. The show uses recurring features, signature phrases and songs to cue the audience when they need to do research, when they transition to the adventure, and when they have reached the ending to review all they've learned.

Age of Target Child Audience	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Lazy Town encourages fitness and healthful habits for preschool children. In the imaginary setting of Lazy Town, characters' eating and fitness habits are linked to problem solving in their world. The lead character is Stephanie, a young girl who guides the audience through the story as she and her friends ("human" puppets) and her Uncle (Mayor Milford Meanswell) navigate life within Lazy Town. Robbie Rotten, the underground spy and influencer who personifies the ethos of Lazy Town, is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids have difficulty with Robbie Rotten, Sportacus, a gymnast/athlete prepared to answer any call for help, comes to the rescue from his home in a zeppelin-like aircraft that hovers over earth. The underlying themes of Lazy Town stress the importance of eating "sports candy" (aka fruits and vegetables), always obtaining sufficient sleep, and going outside to engage in a wide range of physical activities including playing games, competing athletically, and even building forts and play structures.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Tree Fu Tom, is a live action/animated series about a little boy who lives in a rural area and has a rich fantasy life in the woods behind his home. Tom uses specific movements to summon up magic powers that permit him to morph into an animated hero and fly around in Treetopolis, the fantasy version of his woods. While in Treetopolis, Tom and his friends, Ariella, Twigs, Squirmturn and Zigzoo will invariably run into a problem or disaster that needs fixing. Tom calls upon the audience to practice original dance moves that will bring him "Big World" magic so he and his friends can resolve their challenge of the day. Educational messages reinforce positive socio-emotional content, with examples that model: being loyal to good friends, knowing how to ask for help, doing the right thing instead of what is convenient, making the effort to share rather than being selfish, or relying on teamwork in order to accomplish a goal.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Dive Olly Dive offers a collection of boy and girl characters each with their own unique characteristics and strengths. Skid, although something of a bully, comes around in each episode and is never cruel. The team is supportive of one another and lessons of predicting, considering and discovering are cleverly interwoven into an entertaining storyline. Although the series is standard in terms of storytelling, that is, it does not incorporate some of the elements that we know extend a series' power in terms of teaching, Dive Olly Dive offers relatable characters and episodes that are clearly created with the intention of supporting a child's learning. In particular this series supports a child's social development and problem solving skills.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Doki offers fun characters each with their own strengths and weaknesses, therefore offering a broad representation of possible at-home viewers. The team is supportive of one another and the world of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer, i.e. encouraging the viewer to assist on-screen characters to solve problems, and this series might benefit from this type of interaction, Doki does offer enthusiastic characters, real questions, and an arguably realistic presentation of discovery. Combined, these elements will keep children engaged and support their learning.

Earth to Luna is a Brazilian animated series specifically aimed at teaching 2-5 year old children how to ask questions about nature and science and vigorously pursue the answers. The show encourages curiosity, research and critical thinking. Each episode of the show is focused on a particular creature, object or phenomenon that would be of interest to the target audience. For example, Luna might wonder how she can grow a plant without a seed and finds the answer through her inquiry process. The characters, Luna, Jupiter (her brother,) and Clive (their pet ferret) embark on a research effort that takes the audience through each step that answers their over-arching question. The show uses recurring features, signature phrases and songs to cue the audience when they need to do research, when they transition to the adventure, and when they have reached the ending to review all they've learned.

Program Title	Lazy Town
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays, 12:30-1:00 p.m.
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Lazy Town encourages fitness and healthful habits for preschool children. In the imaginary setting of Lazy Town, characters' eating and fitness habits are linked to problem solving in their world. The lead character is Stephanie, a young girl who guides the audience through the story as she and her friends ("human" puppets) and her Uncle (Mayor Milford Meanswell) navigate life within Lazy Town. Robbie Rotten, the underground spy and influencer who personifies the ethos of Lazy Town, is determined to ruin the health and fitness practices of Stephanie and her friends. When the kids have difficulty with Robbie Rotten, Sportacus, a gymnast/athlete prepared to answer any call for help, comes to the rescue from his home in a zeppelin-like aircraft that hovers over earth. The underlying themes of Lazy Town stress the importance of eating "sports candy" (aka fruits and vegetables), always obtaining sufficient sleep, and going outside to engage in a wide range of physical activities including playing games, competing athletically, and even building forts and play structures.

Total times aired at regularly scheduled time	8
Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Floogals is an animated show starring three space aliens--Fleeker, Flo and Boomer--who have been sent to earth to explore, investigate, discover and report their findings to their superiors at Floogal headquarters. The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things Hooman (that's Floogal-speak for human,) the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem solving as nothing on earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multi-step process of watching, listening, touching, and note-taking until they've figured out what and how their new discovery fits into the Hooman universe.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Doki offers fun characters each with their own strengths and weaknesses, therefore offering a broad representation of possible at-home viewers. The team is supportive of one another and the world of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer, i.e. encouraging the viewer to assist on-screen characters to solve problems, and this series might benefit from this type of interaction, Doki does offer enthusiastic characters, real questions, and an arguably realistic presentation of discovery. Combined, these elements will keep children engaged and support their learning.
