Digital Core
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.5
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	336.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	8.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Supported by a team of Georgia Aquarium biologists, veterinarians and other experts, Jeff Corwin travels the world to explore the Earth's least understood resource, our oceans and waterways and the animals which call them home. He swims with manta rays pointing out that their body form was the inspiration for the design of the Stealth jet. While in the water with whale sharks he takes samples of their blood to better understand their biology. As Jeff continues his journey through each episode the viewer is able to connect with these animals and learn how important they are to all life on the planet as well as how sea life connects to life on the rest of the globe. This program aired on the secondary digital stream (6.3).

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program is anchored by Sportacus, a fit and agile hero, whose "kryptonite" is sugar, which makes him instantly lethargic. Sportacus and the program's cast of child characters are challenged in each episode with an issue or dilemma, and are opposed in their attempts to complete their mission by Robbie Rotten, who seeks to return LazyTown to its former lazy ways. The program seeks to impart to preschool and early school-aged children the importance of healthy living, and to help them understand the value of developing sound eating and physical exercise habits, while also providing them positive messages about friendship, empathy, self-respect, truthfulness and other age-appropriate life lessons. This show aired on the stations main digital stream (6.1).

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program is hosted by teens, and uses peer reporting to profile individuals and organizations committed to environmental issues, including reports on the latest recycling and nature conservation efforts, advances in renewable energies and carbon footprint-reducing technology. It also offers advice on how to be more eco-wise while performing daily activities. The program includes eco bytes (bits of trivia related to environmental issues) and video footage uploaded by teen viewers to the programs website. By using this information from a youthful point of view, the program encourages young adults to become more proactive about environmentalism and stresses the positive impact that young peoples efforts, no matter how small they may seem, can have on the larger world around them

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.		STEM education -- science, technology, engineering and math -- is at the heart of "Xploration FabLab," which shows how the subjects make the world a better place. Each episode focuses on a relevant global issue, taking a look at what is being done to solve it. A celebrity with a science or technology background appears on each installment of the show to offer his or her expertise. The goal of the half-hour program is to demonstrate to young viewers how the STEM disciplines can work together to improve people's lives and make the world better. This show aired on the stations secondary digital stream (6.2).

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Supported by a team of Georgia Aquarium biologists, veterinarians, and other experts, Jeff Corwin travels the world to explore the Earth's least understood resource, our oceans and waterways and the animals which call them home. He swims with manta rays, pointing out that their body form was the inspiration for the design of the Stealth jet. While in the water with whale sharks, he takes samples of their blood to better understand their biology. As Jeff continues his journey through each episode, the viewer is able to connect with these animals and learn how important they are to all life on the planet, as well as how sea life connects to life on the rest of the globe. This show aired on the station's secondary digital stream (6.3).
