Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	THINK BIG is a kid hosted entertaining series for young people that follows the worlds most innovative kids as they create and invent new toys, games, learning tools, websites, and modes of transportation. The program features top kid inventors who face off against one another in an Invent Off to see who can come up with the most innovative and creative invention. In each episode, two teams brainstorm, choose materials, and sketch and design their idea. Once completed, the inventions are then judged. This program allows kids to showcase their skills in creativity, science, innovation, marketing and teamwork.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Missing" is a weekly half-hour educational/informational series focusing on actual cases of missing persons. The series, which is appropriate for family viewing and children ages 13-16 in particular, provides information and descriptions of missing children, including endangered runaways as well as victims of abductions. The show also presents peer-to-peer advice on safety in public places and in cyber space, including real-world examples of how to avoid potentially dangerous situations. The program emphasizes taking active responsibility for personal safety and promotes situational awareness, presented in a calm and non-threatening manner suited for teenagers. "Missing" is closed-captioned for the hearing impaired and displays the "E/I" icon throughout the broadcast.
