Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Westfield Insurance Quizbusters" is WNAB's ongoing academic challenge series celebrating the academic excellence found among the ranks of area high schools. It is currently the only show of its kind to be found in the Nashville television market. Each week two four-person teams representing area high schools meet to answer academic questions in the quest to earn enough points to qualify for the Westfield Insurance Quizbusters tournament where participating teams vie for over \$20,000 in academic grants. Although the show consists mainly of academic questions and answers, we do not list it as an E-I program because the information presented comes from various academic disciplines and is presented largely without context. However, we do feel that by celebrating these academic superstars on local television and providing prizes, we are doing our part to encourage academic development and bolster school spirit for the teams who participate. Although the show's primary purpose is not specifically to educate young viewers, the material presented is undoubtedly informational in nature and still represents a significant purpose for the show. While "Westfield Insurance Quizbusters" may not be primarily focused on providing educational content on its own merits, we intend for the program to celebrate education itself and to reward those who have attained a high level of achievement in the classroom. That is why we list this program on this form.
