Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.03
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	336.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	7.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	STEM education -- science, technology, engineering and math -- is at the heart of "Xploration FabLab," which shows how the subjects make the world a better place. Each episode focuses on a relevant global issue, taking a look at what is being done to solve it. A celebrity with a science or technology background appears on each installment of the show to offer his or her expertise. The goal of the half-hour program is to demonstrate to young viewers how the STEM disciplines can work together to improve people's lives and make the world better. Xploration Fab Lab last aired on September 4, 2016 and replaced by Xploration Weird But True.

Age of Target Child Audience	3 years to 6 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	It's a Big Big World" is an innovative preschool series from award-winning television series creator Mitchell Kriegman. The series, geared toward 3 to 6 year-old children, is produced in "Shadowmation," a visually striking technique that combines computer generated animation, puppetry and animatronics to create a uniquely rich world of animal characters, exciting stories, and world music rhythms. Science and geography concepts are explored and reinforced through engaging stories and songs, tapping into a child's natural fascination with a world much bigger than his or her immediate surroundings. Educational advisors help to ensure that the content and program format are age-appropriate.

Age of Target Child Audience	6 years to 9 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Finding Stuff Out is a lively science-oriented series which, instead of imposing adult notions on kids about what they should know, gives them what they want: answers to the questions that matter to them the most! Educational studies show that learning that involves strong emotions, especially humor, stays with us the longest. Finding Stuff Out uses an approach that is funny and witty - never earnest - to encourage kids to watch and to help them remember what they learn. To heighten that fun, entertaining experience, it will also be highly visual, using energetic, youthful hosts, colorful in-studio demonstrations, eye-catching video packs, and simple yet playful animation. "Finding Stuff Out" will further relate to its audience by using real children, both in the studio and in "streeters". It all adds up to a fun and insightful show that isn't about science per se, but rather a show that uses science and some exciting situations to fascinate children by answering the myriad questions that kids have about the world around them.

Liaison Contact

Question	Response
Does the Licensee publicize the existence and location of the station's Children's Television Programming Reports (FCC 398) as required by 47 C.F.R. Section 73.3526(e)(11)(iii)?	Yes
Name of children's programming liaison	Charlene R. Watkins
Address	1024 N. Rampart Street
City	New Orleans
State	LA
Zip	70116
Telephone Number	(504) 529-6371
Email Address	cwatkins@wwltv.com
Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	WUPL aired public service announcements during this quarter targeting children ages 16 and under addressing issues such as, autism, child abuse, school dropout and child literacy. NON-BROADCAST EFFORTS: During this quarter, a number of WWL-TV's on-air anchors /reporters and off-air employees volunteered their time to meet and speak to students at various elementary, middle and high schools in the New Orleans and surrounding areas, addressing such issues as the importance of staying in school and achieving an education, career opportunities in journalism and broadcasting, the dangers of drug and alcohol use, and other issues children face in today's society. A complete list of these activities are placed in our Public Files under "Non-Broadcast Efforts".

Program Title	Xploration Nature Knows Best (54.1)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sunday, 7:30-8:00am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and Marine Biologist, Danni Washington, exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers are not the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants; architects who design living buildings; and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will show kids how understanding nature can help them make the next great discovery. After all, nature knows best!

Safari provides core programming in the areas of global ecology, wildlife biology and species conservation and preservation. Emmy award-winning host and wildlife expert John Ross travels to the farthest reaches of the world to bring the viewers face to face with some of the planet's most interesting animals. Safari offers a dynamic television experience for teens - with the exciting experience of exploring the fascinating world of wildlife and at the same time discovering what needs to be done to protect the animals and their habitat so that they can live on in the wild. Various age-appropriate global wildlife and ecology issues are introduced to the viewing audience with in-depth and thoughtful explanations.

Certification

Question	Response
