| Length of Program | 30 mins |
| Age of Target Child Audience | 13 years to 16 years |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | <p>Chronicling the adventures of Dr. Chris Brown, DR. CHRIS PET VET allows viewers unique insight into the life of one of the world's busiest vets and the animals that he treats. For those animals that require specialist services, Dr. Chris calls on his good friend and colleague Dr. Lisa Chimes, who works at a small animal specialist hospital. The show usually consists of three segments, following the doctor as he treats various animals that are in trouble and offering the viewer opportunities to understand the challenges a veterinarian daily faces. The series focuses on how the doctor investigates the individual problem and tries to develop solutions that on the surface would seem confounding to the viewer. As such the show not only offers a view into careers in and responsibility for taking care of pets, but also into problem solving strategies and behaviors. This program is specifically designed to further the educational and informational needs of children, has educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules</p> |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Wild America is a documentary television series that focuses on the wild animals and wild lands of North America. Hosted by wildlife expert Mary Soufer, this series is designed to familiarize children with the animals of North American continent, their interaction with other animals, and their environment. Each episode is specific to a particular animal and deals with basic food gathering, natural enemies, relationships to other animals and specific ecology and survival of the species. Imparted to children is a greater understanding of nature and ecology of the land and the importance of every species and their place in the animal spectrum. |
