Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	UTAH MATTERS: Program focuses on issues of interest to the local community. Discussions and interviews with Host Dean Paynter give viewers information on what's happening in their area. HISTORY OF THE SAINTS: History of the Saints is a unique documentary historical series focused on the pioneer history of the Church of Jesus Christ of Latter-day Saints from the martyrdom of Joseph Smith in June 1844 to the arrival of the pioneers in Utah in July 1847. THIS WEEK IN AGRIBUSINESS: If you are a farmer, rancher, involved in agribusiness...or just have a general interest in agriculture (like you enjoy eating), you will find something of interest here. For example, there's Greg Soulje's daily update of US weather, wander through Max's tractor shed,or check out the most recent (or not-so-recent) Samuelson Sez. The Program also has an FFA tribute each week and ties in to young people who are interested in agriculture in any form.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The series Zoo Clues will keep 13-16 year-old viewers engaged for 30 minutes with the nearly infinite visual richness, animal characteristics, and wild range of animal behaviors. Beyond its target audience, both older and younger audiences should find this look across the amazing world of animals fascinating. Beyond basic engagement, Zoo Clues will leave viewers with a meaningful perspective about animals and meaningful comparisons to their own human characteristics. The variety of the animal kingdom is truly odd and bizarre enough to read like fiction, but the clever narration of Zoo Clues links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world. Grouping animal behaviors and physical characteristics into groups from a human point of view holds the series thematically together. Animal Senses explains how animals use their extraordinary senses in ways that we can't. Animal Olympics creates an animal "Olympics" where animals are put together in an athletic competition based upon their statistics. It is always kept in perspective by putting the feats in human terms, such as when the leaping ability of a flea is compared to a human high jump of hundreds of feet. The music is cinematic and supportive. The narrator's everyday tone keeps everything in perspective for adolescent viewers (examples: "sounds complicated, doesn't it?" and "let's investigate!") while keeping it interesting for adults. The pull of the Mystery Animal visual quizzes and the fun of Animal Oddities make the show more interactive and will no doubt lead to interesting social media posts by viewers. The information presented is so rich and mindboggling that Zoo Clues is one of those rare programs that would work visually with the sound off-or as a radio show with no visuals at all.
