Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Floogals is an animated show starring three space aliens, Fleeker, Flo and Boomer, who have been sent to Earth to explore, investigate, discover and report their findings to their superiors at Floogal headquarters. The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things human, the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem solving as nothing on Earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multi-step process of watching, listening, touching, and note-taking until they have figured out what and how their new discovery fits into the human universe. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Noodle and Doodle is a live-action show hosted by Sean Roach that also blends animation and puppetry into the overall format. Sean drives a double-decker bus into various communities to meet children who have written to him with a problem that they would like to solve using an art and/or a food experience. Sean is accompanied by Noodle, a puppet character and Doodle, a digital character that lives inside a tablet computer, and Doggity, a faithful beagle. Doggity has a mini-show of his own through an animated alter ego that appears during diversionary segments set in a restaurant kitchen. The show demonstrates how recycled materials can become art and how food, art, and problem solving can be combined to create a fun experience in everyday life. Every episode can be replicated at home with ease by parents and children playing together.
