Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON MAIN DIGITAL CHANNEL: Chica is a five-year-old baby chick who spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit and Stitches, a straw mannequin that sits in the window. Chica's parents were formerly entertainers in the vaudeville tradition and they regale the audience with stories and songs from their theatrical past. They enjoy and indulge Chica, who sometimes acts younger than her age and gets into all kinds of predicaments. Kelly used fantasy play to transform herself, Chica, Bunji and Stitches into animated characters in another universe, who are struggling with a problem similar to the one Chica experienced in the Coop. Without fail, they find the problem can be solved and they carry that knowledge back to the Coop to use on another day.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>AIRING ON MAIN DIGITAL CHANNEL: "Astroblast!" follows the adventures of a crew of space animals who run the Astroblast Space Station - the coolest hangout in the galaxy. The team of animals who run it are the best of friends - Comet, Halley, Sputnik, Radar and Jet - all under the watchful eye of Sal the Octopus. But when you stick five friends with very different personalities in one place - things are bound to get messy. Through it all, the "Astroblast!" crew accept their differences, help one another, make new friends, and discover that getting along is always out of this world. Every day brings a new adventure - big and small - whether it involves getting ready for a surprise birthday party for a Gremulon princess, dealing with demanding dairy-obsessed customers from the Milky Way, making peace between two spaceships of hungry space pirates, or helping a scary-looking, but shy, visitor make friends when no one will sit with him at lunch. "Astroblast!" is a Sprout original series that is co-produced with Scholastic Media, a division of Scholastic Inc., the global children's publishing, education and media company. "Astroblast!" is inspired by the books of the same name by award-winning author and illustrator Bob Kolar.</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON MAIN DIGITAL CHANNEL: The mission of "Teen Kids News" is to produce a weekly news program that provides information and news to kids in a manner that is educational as well as highly entertaining. The target audience for the program is 13-16 year olds. It is designed to appeal to the audience on its own level. The focus of the program is young people, always letting them tell their stories in their own words. The large, diverse news anchor team is unique in television and has great appeal on kids who identify with and emulate them. This program serves the audience in a way that makes a real difference in their lives. It inserts the clear voice of the kid into the adult-dominated media and provides a unique perspective to the news that is not currently available on network television. This is a unique way of doing business in the crowded world of television news. There is no current news program that features actual kids reporting to other kids on television. There have been shows by adults working with kids but none that a young audience can literally identify with. Teen Kids News is filling that void and has captured the imagination of America becoming the first program in history targeting the next generation of news viewers. The program puts emphasis on diversity and experience to develop a cast of engaging and intelligent African-American, Hispanic, Asian and Caucasian male and female child actors who interact with each other and connect to the viewers.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON DIGITAL "MeTV" MULTICAST CHANNEL: Mystery Hunters is an excellent example of a children's program that is innovative and empowering. Through critical observation, analytical thinking and scientific testing, the series encourages children to question the world around them. Though both the travel aspect and investigation of ancient myths and mysteries, there is a profound focus on history, culture, geography and international customs. The Mystery Hunters are Araya and Christina, regular kids with inquisitive minds, who travel the globe to investigate the sites and delve into the tales which have baffled people throughout the ages - looking for the Loch Ness Monster, unraveling a smelly mummy, searching for Princess Anastasia, and learning the true story of King Tut. Armed with video cameras and their instincts, they gather facts and meet the experts, debunking common myths and offering explanations for legends, spooky stories, and unexplained phenomena. They use critical thinking and scientific reasoning to show that things are not always what they seem. Back at the Discovery Mystery Lab, Doubting Dave, the resident skeptical scientist, challenges viewers to send in their own mysteries, and then tackles the questions with experiments and logical explanations. Dave also assists the Mystery Hunters with their investigations.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON MAIN DIGITAL CHANNEL: Terrific Trucks is a live-action series that follows the exploits of five self-driving, heavy-duty construction trucks. They include Tork, the dump truck, Stotz, the flatbed, Dug, the digger, Blinker, the mini-digger, and Sparky, the front-end loader. The trucks reside in a fully equipped truck yard/rock quarry and work as a team on various building projects that require planning, collaboration and implementation. Each truck brings specific skills to the group. They get challenging job assignments from Mr. Bill Board, a digital outdoor screen that outlines and diagrams the problem to be solved. By allocating the role each truck will perform during the project, the group merges those unique skills to fulfill their respective assignments. Unexpected problems that could compromise their success-- such as the weather, broken truck parts, or personal conflicts between the trucks--- are addressed and overcome so the job can be completed.

AIRING ON MAIN DIGITAL CHANNEL: Floogals is an animated show starring three space aliens who have been sent to earth to explore, investigate, discover and report their findings to their superiors at Floogal headquarters. The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things Hooman, the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem solving as nothing on earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multi-step process of watching, listening, touching, and note-taking until they've figured out what and how their new discovery fits into the Hooman universe.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	Westfield Insurance Brainbusters is a locally produced high school quizbowl show that airs during the school year Saturdays at 12:30 p.m. on WGAL. This 30 minute quizbowl tournament is geared towards high school students and celebrates academic achievement. It began airing on WGAL in January 2000. The broadcast tournament includes nearly 40 schools from Lancaster, Lebanon, Dauphin, Cumberland, Perry, York, Franklin and Adams counties. Schools compete for school funding for scholarships, prizes, and more. One or more episodes of children's programming that was preempted during the quarter was not rescheduled. The Digital Core Programming Summary section of this report would not permit the station to include preemption reports for such unrescheduled preemptions, and FCC Staff has advised that no preemption report for such unrescheduled episode(s) is necessary.

Program Title	TEEN KIDS NEWS
Origination	Syndicated
Days/Times Program Regularly Scheduled	SATURDAY 12:00PM
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON MAIN DIGITAL CHANNEL: The mission of "Teen Kids News" is to produce a weekly news program that provides information and news to kids in a manner that is educational as well as highly entertaining. The target audience for the program is 13-16 year olds. It is designed to appeal to the audience on its own level. The focus of the program is young people, always letting them tell their stories in their own words. The large, diverse news anchor team is unique in television and has great appeal on kids who identify with and emulate them. This program serves the audience in a way that makes a real difference in their lives. It inserts the clear voice of the kid into the adult-dominated media and provides a unique perspective to the news that is not currently available on network television. This is a unique way of doing business in the crowded world of television news. There is no current news program that features actual kids reporting to other kids on television. There have been shows by adults working with kids but none that a young audience can literally identify with. Teen Kids News is filling that void and has captured the imagination of America becoming the first program in history targeting the next generation of news viewers. The program puts emphasis on diversity and experience to develop a cast of engaging and intelligent African-American, Hispanic, Asian and Caucasian male and female child actors who interact with each other and connect to the viewers.

Days/Times Program Regularly Scheduled	SUNDAY 7:00A
Total times aired at regularly scheduled time	13
Length of Program	30 mins

Age of Target Child Audience from	13 years to 16 years
-----------------------------------	----------------------

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AIRING ON DIGITAL "MeTV" MULTICAST CHANNEL: Mystery Hunters is an excellent example of a children's program that is innovative and empowering. Through critical observation, analytical thinking and scientific testing, the series encourages children to question the world around them. Though both the travel aspect and investigation of ancient myths and mysteries, there is a profound focus on history, culture, geography and international customs. The Mystery Hunters are Araya and Christina, regular kids with inquisitive minds, who travel the globe to investigate the sites and delve into the tales which have baffled people throughout the ages - looking for the Loch Ness Monster, unraveling a smelly mummy, searching for Princess Anastasia, and learning the true story of King Tut. Armed with video cameras and their instincts, they gather facts and meet the experts, debunking common myths and offering explanations for legends, spooky stories, and unexplained phenomena. They use critical thinking and scientific reasoning to show that things are not always what they seem. Back at the Discovery Mystery Lab, Doubting Dave, the resident skeptical scientist, challenges viewers to send in their own mysteries, and then tackles the questions with experiments and logical explanations. Dave also assists the Mystery Hunters with their investigations.
