Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program addresses many topics related to Earth Sciences, encompassing all the fields of science dealing with planet earth. To name only a few of the topics discussed in this program: geography, geology, ecology, and glaciology (the glaciers of the earth). It is hosted by Phillippe Cousteau, an environmentalist and the grandson of Jacques Cousteau, who brings a lot of enthusiasm to the study of the earth. I was impressed with the producers ability to successfully deliver scientific information in such an entertaining and engaging way. it gives the viewer an appreciation of the fine balance that exists in our atmosphere. It would be easy for educators to use the content to create lesson plans on Earth Sciences from this program

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our hosts try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-lite habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown.
