Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series takes full advantage of this natural curiosity, using George to motivate children to expand their own investigations of the world. George's memorable adventures from dismantling clocks to rounding up errant bunnies offer the perfect vehicles for introducing preschoolers to key concepts in science, engineering, and math. Exploring the world around him with wonder and intrigue, George embodies the preschool child's potential in the field of science. George's desire to use his four little hands to skillfully take things apart and figure out how they work exposes children to the basic concepts of engineering. And his interactions with patterns, measurements, and geometric shapes introduces early mathematical concepts.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Cat in the Hat Knows a Lot About That!? is designed to spark a love of learning and an interest in science in preschool-aged children. Based on Random House's best-selling Beginner Book collection "The Cat in the Hat's Learning Library?," the TV series and online resources are designed to cultivate positive views about science and scientists among the next generation - the children who will become tomorrow's citizens and innovators - and help teachers and families build communities of science explorers. In each program, the Cat in the Hat and his friends Sally and Nick go on a science adventure, such as flying with birds to discover how and why they migrate or taking a snowcat to the Arctic to explore freezing and melting. Guided by the Cat, the children figure things out by engaging in science inquiry. Each half-hour episode consists of two 11-minute animated adventures, along with corresponding short animated clips. Each adventure revolves around a specific science concept such as bird migration or animal camouflage.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	NATURE CAT follows Fred, a house cat who dreams of exploring the great outdoors. In each episode, once his family leaves for the day, Fred transforms into Nature Cat, "backyard explorer extraordinaire." Nature Cat can't wait to get outside for a day of backyard nature excursions and bravery, but there's one problem: He's still a house cat with no instincts for nature. Like many of today's kids, Nature Cat is eager and enthusiastic about outside activities, but is at times intimidated by them. With the help of his animal friends, Nature Cat embarks on action-packed adventures that include exciting missions full of nature investigation, "aha" discovery moments and humor, all while inspiring children to go outside and "play the show."

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	A breakthrough preschool series designed to help kids with the critical skills that they need to learn to read (and love to read!) As recommended by the national reading panel (alphabet skills, word families, spelling, comprehension, and vocabulary). In every episode, one of the friends encounters a problem with another Storybrook Village character (for instance, Jill from the Jack and Jill rhyme is not being nice). As in real life, the problems require preschool social skills to resolve. And that's when Super Why gets super-powered! Whyatt calls his fairy tale friends to their secret clubhouse, named "The Book Club," where they transform themselves from mere mortals into literacy-powered super heroes: Alpha Pig with "alphabet power," Wonder Red with "word power," Princess Presto with "spelling power," Super Why with the "power to read," and your child-super You, with the "power to help." using their super powers, these super readers literally fly inside books. The adventure begins as the Super Readers find out how famous fictional characters handled similar situations (why is the Big Bad Wolf so big and bad?) This adventure inside a book helps the Super Readers figure out the answers to their own problems. Be prepared to hear: Super Why! And Super Readers to the rescue!

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Sid the Science Kid uses comedy to celebrate children's natural curiosity about science and explores their "Why?" questions in everyday life. It features the energetic and inquisitive five-year-old Sid, who tackles the ideas that preschoolers find fascinating (Why do bananas go "bad"? How does my juice box straw work? How does a bird fly without a plane?). In each episode, viewers meet Sid's friends and family who help him find the answers to these questions.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This animated series follows the everyday life and superhero adventures of WordGirl, as she fights crime and enriches vocabulary usage, all in a day's work. Disguised as mild mannered 5th grader, Becky Botsford, WordGirl arrived on planet earth when she and her monkey sidekick, Captain Huggy Face, crashed their spaceship. In classic superhero form, WordGirl possesses superhero strength with the added benefit of a colossal vocabulary. WordGirl has a family and friends who have no idea of her secret identity. As WordGirl, she battles and prevails over evil villains. Each episode introduces four new vocabulary words and will reinforce their meaning in a variety of contexts throughout the episode. The vocabulary itself is not necessarily a plot point. The show teaches new vocabulary words to children in a variety of fun and interesting contexts. WordGirl is a superhero spoof, so storylines are funny takes of familiar stories from that genre. WordGirl enriches young audience's vocabulary, closes the gap for those who don't grow up in language rich environments, instills a love of language, and fosters better reading comprehension.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The goal of Martha Speaks is to increase oral vocabulary, the words we use when we talk. The shows are not trying to teach kids how to read. They are designed to help kids understand what words mean when they hear them; words like retrieve, sprout, and crave. Vocabulary is one thing that predicts if children will be good readers. Once they are in school and they see these words, children will need to know what they mean. If children have heard the words before, that familiarity will help them as they learn to read. Martha Speaks is designed to teach up to 20 words in each show. And how better to get kids excited about learning and trying out new words than with a talking dog, who just can't stop talking?!

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series now takes the natural appeal of animals and harnesses it towards the goal of teaching science concepts to children ages 6- 8. Educationally, Wild Kratts is timely, focusing on science just as educational indicators show an alarming trend of low performance and interest in science in today's children in international comparisons (NSF Indicators 2004). The smart, fun, confident, enthusiastic characters of Wild Kratts provide role models that are culturally diverse to ensure that a wide range of viewers can identify with, and thus learn with, the characters in the show.

Ariel & Zoey & Eli, Too (AZE2), a musical variety show that is driven by three siblings, empowers children to accomplish their goals and their dreams. AZE2 accomplishes this through interviewing people who excel in their profession and have a positive message for kids, introducing guests who perform different genres of music, and presenting musical performances by the cast members themselves. These cast musical performances show children they can write their own music and the importance of teamwork. Music on the show is produced by Emmy Award winner David Barrett. He and Brian Brill (another Emmy winner) ensure that the music is tailored for the young audience. All songs offer a positive message about life. Every episode begins with the song "Sweet Company which sends the positive message of friendship and ends with the singing of End of Another Day which encourages the viewer to stay optimistic about tomorrow.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Aqua Kids provides a unique vehicle for young people to learn about the diversity of marine animals around the world, emphasizing the importance of preserving fragile aquatic habitats and encouraging children to take an active role in protecting the future of their community and the world. The program provides a window into the management and preservation of unique habitats and species through the eyes of kids and their hands-on collaboration with science researchers and educators. The messages delivered by Aqua Kids are given by a creative and resourceful host, Molly McKinney, whose scientific background is evident in the show. The other young hosts, whose ages range from pre-teen to late teens, are equally entertaining and informative. The young viewers identify with these young hosts and imagine themselves in the role of the scientist and as someone who could have a positive impact on the environment. The format of young student scientists presenting information on location in a variety of aquatic settings is both entertaining and informative.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Howdy Doody is a 1975 series which is known to its viewers for Buffalo Bob in his cowboy attire and a cast of human characters such as Clarabell the Clown and Chief Thunderthud as well as puppets (i.e., Howdy Doody, Dilly Dally, Flub a Dub, etc.). Children sat on stage in the Peanut Gallery, thus making this show a forerunner of interactive programming we enjoy today. The primary value of the series is to educate and entertain elementary school aged children. In addition, both older children and monitoring adults will find this series amusing and quite charming as Howdy Doody is a timeless character who has an interactive quality. Educationally, the series offers opportunities for parents and teachers to teach lessons related to language, character development, science, and listening skills. In accordance with the 1990 Children's Television Act (ATC) intended to increase educational and informational programming for children on television, HOWDY DOODY clearly meets the goals of providing children with a television show that meets CORE requirements of the FCC as follows - 1. Issues such as bullying, establishing trust and courtesy are faced and resolved in the episodes. 2. Responsibility is presented in a positive and encouraging manner. 3. Making choices in life, mastery of attachment and separation are emphasized in each episode. 4. Issues of competition and loyalty are conveyed throughout the series.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Curiosity about space starts very early. As soon as kids are old enough to look up at the night sky, they begin to wonder, what is up there? Is there life somewhere, impossibly far away? Can we get there? Who better to ask about space than someone who has actually been there, an alien boy named Jet Propulsion. Ready Jet Go is a kid's first introduction to space, earth science, and technology, presented in an entertaining and engaging way that will inspire a lifelong interest. Kids ages 3 to 8 will be learning alongside a seasoned space traveler. As an alien from Borton 7, Jet sees our Planet Earth like we want our kids to see it, with a sense of curiosity and wonder.

Days/Times Program Regularly Scheduled	Sunday 11:00am-11:30am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Aqua Kids provides a unique vehicle for young people to learn about the diversity of marine animals around the world, emphasizing the importance of preserving fragile aquatic habitats and encouraging children to take an active role in protecting the future of their community and the world. The program provides a window into the management and preservation of unique habitats and species through the eyes of kids and their hands-on collaboration with science researchers and educators. The messages delivered by Aqua Kids are given by a creative and resourceful host, Molly McKinney, whose scientific background is evident in the show. The other young hosts, whose ages range from pre-teen to late teens, are equally entertaining and informative. The young viewers identify with these young hosts and imagine themselves in the role of the scientist and as someone who could have a positive impact on the environment. The format of young student scientists presenting information on location in a variety of aquatic settings is both entertaining and informative.

Days/Times Program Regularly Scheduled	Sunday 8:00am-9:00am
Total times aired at regularly scheduled time	26
Length of Program	30 mins
Age of Target Child Audience from	6 years to 10 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Howdy Doody is a 1975 series which is known to its viewers for Buffalo Bob in his cowboy attire and a cast of human characters such as Clarabell the Clown and Chief Thunderthud as well as puppets (i.e., Howdy Doody, Dilly Dally, Flub a Dub, etc.). Children sat on stage in the Peanut Gallery, thus making this show a forerunner of interactive programming we enjoy today. The primary value of the series is to educate and entertain elementary school-aged children. In addition, both older children and monitoring adults will find this series amusing and quite charming as Howdy Doody is a timeless character who has an interactive quality. Educationally, the series offers opportunities for parents and teachers to teach lessons related to language, character development, science, and listening skills. In accordance with the 1990 Children's Television Act (ATC) intended to increase educational and informational programming for children on television, HOWDY DOODY clearly meets the goals of providing children with a television show that meets CORE requirements of the FCC as follows - 1. Issues such as bullying, establishing trust and courtesy are faced and resolved in the episodes. 2. Responsibility is presented in a positive and encouraging manner. 3. Making choices in life, mastery of attachment and separation are emphasized in each episode. 4. Issues of competition and loyalty are conveyed throughout the series.

Days/Times Program Regularly Scheduled	Monday-Friday 12:30pm-1:00pm
Total times aired at regularly scheduled time	66
Length of Program	30 mins
Age of Target Child Audience from	5 years to 9 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Cat in the Hat Knows a Lot About That!? is designed to spark a love of learning and an interest in science in preschool-aged children. Based on Random House's best-selling Beginner Book collection "The Cat in the Hat's Learning Library?," the TV series and online resources are designed to cultivate positive views about science and scientists among the next generation - the children who will become tomorrow's citizens and innovators - and help teachers and families build communities of science explorers. In each program, the Cat in the Hat and his friends Sally and Nick go on a science adventure, such as flying with birds to discover how and why they migrate or taking a snowcat to the Arctic to explore freezing and melting. Guided by the Cat, the children figure things out by engaging in science inquiry. Each half-hour episode consists of two 11-minute animated adventures, along with corresponding short animated clips. Each adventure revolves around a specific science concept such as bird migration or animal camouflage.

Days/Times Program Regularly Scheduled	Monday-Friday 11:00am-11:30am
Total times aired at regularly scheduled time	66
Length of Program	30 mins
Age of Target Child Audience from	3 years to 6 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	A breakthrough preschool series designed to help kids with the critical skills that they need to learn to read (and love to read!) As recommended by the national reading panel (alphabet skills, word families, spelling, comprehension, and vocabulary). In every episode, one of the friends encounters a problem with another Storybrook Village character (for instance, Jill from the Jack and Jill rhyme is not being nice). As in real life, the problems require preschool social skills to resolve. And that's when Super Why gets super-powered! Whyatt calls his fairy tale friends to their secret clubhouse, named "The Book Club," where they transform themselves from mere mortals into literacy-powered super heroes: Alpha Pig with "alphabet power," Wonder Red with "word power," Princess Presto with "spelling power," Super Why with the "power to read," and your child-super You, with the "power to help." using their super powers, these super readers literally fly inside books. The adventure begins as the Super Readers find out how famous fictional characters handled similar situations (why is the Big Bad Wolf so big and bad?) This adventure inside a book helps the Super Readers figure out the answers to their own problems. Be prepared to hear: Super Why! And Super Readers to the rescue!

Origination	Network
Days/Times Program Regularly Scheduled	Monday-Friday 5:30pm-6:00pm
Total times aired at regularly scheduled time	66
Length of Program	30 mins
Age of Target Child Audience from	6 years to 11 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This animated series follows the everyday life and superhero adventures of WordGirl, as she fights crime and enriches vocabulary usage, all in a day's work. Disguised as mild mannered 5th grader, Becky Botsford, WordGirl arrived on planet earth when she and her monkey sidekick, Captain Huggy Face, crashed their spaceship. In classic superhero form, WordGirl possesses superhero strength with the added benefit of a colossal vocabulary. WordGirl has a family and friends who have no idea of her secret identity. As WordGirl, she battles and prevails over evil villains. Each episode introduces four new vocabulary words and will reinforce their meaning in a variety of contexts throughout the episode. The vocabulary itself is not necessarily a plot point. The show teaches new vocabulary words to children in a variety of fun and interesting contexts. WordGirl is a superhero spoof, so storylines are funny takes of familiar stories from that genre. WordGirl enriches young audience's vocabulary, closes the gap for those who don't grow up in language rich environments, instills a love of language, and fosters better reading comprehension.

Age of Target Child Audience from	4 years to 7 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The goal of Martha Speaks is to increase oral vocabulary, the words we use when we talk. The shows are not trying to teach kids how to read. They are designed to help kids understand what words mean when they hear them; words like retrieve, sprout, and crave. Vocabulary is one thing that predicts if children will be good readers. Once they are in school and they see these words, children will need to know what they mean. If children have heard the words before, that familiarity will help them as they learn to read. Martha Speaks is designed to teach up to 20 words in each show. And how better to get kids excited about learning and trying out new words than with a talking dog, who just can't stop talking?!
