Digital Core  
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	7.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Length of Program		30 mins
Age of Target Child Audience		13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.		Each episode in this program consists of multiple, short-story segments based on a central topic. Episodes will focus on a relevant global issue and what's being done to solve it. Using real-live examples, FabLab illustrates how all the STEM disciplines work together to improve our lives and make the world better. Episode examples include middle school and high school students using science to make a difference in their communities' health and safety by reducing food waste, and with a tiny home design to help solve homelessness. This program airs on the stations main digital stream.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The educational goal of this program is to show teens the proper reaction when faced with everyday circumstances. Through dramatic reenactments, the program documents ordinary teens who accidentally find themselves in perilous and challenging situations. Various experts interview the participants and explain what the proper reaction should be when faced with similar perilous circumstances. A moral dilemma segment will also be featured in each show in an effort to help teens to make the right decision at the right moment. This program airs on the secondary digital stream, channel D2.

<p>Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.</p>	<p>KMPH-CD continued to serve the educational, informational, and social needs of children throughout the 1st Quarter 2016 through extensive broadcast and outreach activities. The station has continued to air PSAs for local and national organizations serving the interests of children and families, including The Ad Council's Learning &amp; Attention Issues Campaign, expanding the number of parents who are actively helping and seeking help for their children with learning and attention issues, The Ad Council Childhood Asthma Attack Prevention Campaign helping asthmatic children to learn how to prevent asthma attacks and avoid the emergency room, the Boystown Keep Your Cool Campaign offering valuable resources to help deal with family issues in today's challenging world, and the St. Jude Children's Research Hospital's Campaign giving families hope when their children are receiving medical services at St. Jude hospital. We also have presented stories in our newscasts highlighting children's issues, including the dangers of leaving children unattended in running vehicles, reporting the consequences of youth selling prescription drugs at a local school, warning of a new threat from the Zika virus to newborns, and the value of annual Girl Scout cookie fund raiser to the beneficial youth program. The station continues to provide tours of our facility to local schools and organizations to show where and how the news is produced, and to answer questions on what skills are needed to work in the industry, including education. The station's on-air talent maintains an extensive schedule with community groups and schools. Visits were made to schools to read to students, helping them develop a love of reading and continuing education, teaching them about weather and the environment, sports and health, and to answer questions about television, world events, and issues that impact children. Video of the students and teachers of the schools visited are featured during our 5 hour morning news and entertainment program, Great Day. These videos are included in Kopi's Ten Day Forecast, Great Day Faces, and the 7th Inning Stretch. These videos and their accompanying stories are also featured on our website. Our news personalities are all active in the community, including one of who serves on the board of the Northern California Chapter of the National Association of Television Arts and Sciences, serving in the Mentoring and Scholarship programs. Our station is active on social media, where we have fielded questions from children, and take the opportunity to encourage them to continue their education, act in a socially responsible manner, and become good stewards of the planet on which they live.</p>
