Total times aired at regularly scheduled time	4
Total times aired	13
Number of Preemptions	9
Number of Preemptions for other than Breaking News	9
Number of Preemptions Rescheduled	9
Length of Program	30 mins
Age of Target Child Audience	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Chica Show features a five year old "baby" chick that spends her days with her parents in their costume shop, the Coop. The shop's one employee, Kelly, doubles as Chica's nanny and the ensemble is rounded out with Bunji, a large floppy eared rabbit, and Stitches, a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and interpersonal behaviors. She and Kelly usually works on the problem through an adventure fantasy transformation to animation where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio emotional development as Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Noodle and Doodle, an instructional series, features art and cooking projects around a specific theme. Host, Sean, drives around in a doubledecker bus fully equipped with art supplies and a kitchen, ready for any assignment. The projects encourage parent engagement and often feature families working together to make something to display within the child's home. Sean's sidekick, Doggity, is an everfaithful beagle who transforms into an animated character during interstitial trips to a parallel universe, set in a kitchen full of prank playing animated characters. The art projects typically promote utilizing recycled materials in order to demonstrate that creativity can transform something intended for one purpose into something that achieves a completely different goal.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.		Floogals is an animated show starring three space aliens Fleeker, Flo, and Boomer who have been sent to earth to explore, investigate, discover and report their findings to their superiors at Floogal headquarters. The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things Hooman [that's Floogal speak for human], the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem solving as nothing on earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multistep process of watching, listening, touching, and notetaking until they've figured out what and how their new discovery fits into the Hooman universe.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Terrific Trucks is a live-action series that follows the exploits of five self-driving, heavy-duty construction trucks. They include Tork, the dump truck, Stotz, the flatbed, Dug, the digger, Blinker, the mini-digger, and Sparky, the front-end loader. The trucks reside in a fully equipped truck yard/rock quarry and work as a team on various building projects that require planning, collaboration and implementation. Each truck brings specific skills to the group. They get challenging job assignments from Mr. Bill Board, a digital outdoor screen that outlines and diagrams the problem to be solved. By allocating the role each truck will perform during the project, the group merges those unique skills to fulfill their respective assignments. Unexpected problems that could compromise their success-- such as the weather, broken truck parts, or personal conflicts between the trucks--- are addressed and overcome so the job can be completed.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Nina's World is an animated show based on a six year old Latina, who lives in San Antonio, Texas with her parents, who own the local bakery, and her Abuela (grandmother). Her Tio (Uncle) Javier lives nearby and there are lots of different children and adults from several different cultures in the apartment complex and neighborhood where she lives. Nina's best friend is Star, a stuffed starfish pillow character brought to life by Nina's imagination. Each episode features Nina taking on a challenge, solving a problem, or finding a way to help others. She is very confident about her abilities, which sometimes gets her into trouble. However, with encouragement and chiding from Abuela, Nina learns about how to plan her "work," take responsibility for her actions, and correct her mistakes.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This animated show puts an emphasis on logical thinking and use of language through fun problem solving adventures. The trio, RRTD, is guided by Hatty, an erudite hamster who wears a hat full of questions. The three characters agree that they would like to take a particular adventure and rev up their RolyPods, enter the SpinAgain transport vehicle and arrive at their destination. Once there, Hatty challenges them to make decisions and choose options that will lead to success or failure with their quest. Once their mission is complete, they review their effort, assemble the RolyPods and head home. Their adventures are varied. They might go climb a mountain, design their own fairy tale, or build a sand castle.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast!, based on the book series by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. The station is populated by five animal characters and one three eyed octopus of unknown derivation. Each episode begins with an everyday conversation or incident that grows into a predicament of some sort needing a solution. While these predicaments take place on a space station populated by animal characters and aliens from different galaxies, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to keep track of things that belong to you, practice good habits, clean up a space when you've made a mess, rebound from a failure or an embarrassing incident, or resist the urge to blame others for your mistakes.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This animated show puts an emphasis on logical thinking and use of language through fun problem solving adventures. The trio, RRTD, is guided by Hatty, an erudite hamster who wears a hat full of questions. The three characters agree that they would like to take a particular adventure and rev up their RolyPods, enter the SpinAgain transport vehicle and arrive at their destination. Once there, Hatty challenges them to make decisions and choose options that will lead to success or failure with their quest. Once their mission is complete, they review their effort, assemble the RolyPods and head home. Their adventures are varied. They might go climb a mountain, design their own fairy tale, or build a sand castle.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	Due to multiple network sports preemptions including the Tour de France, Golf and three weeks of the 2016 Summer Olympics, had to utilize multiple homes for The The Chica Show, Noodle & Doodle, Terrific Trucks, Floogals and Ruff Ruff, Tweet and Dave. Also, while one run of "Floogals, Nina's World, Ruff Ruff Tweet and Dave and Astroblast" aired in 3rd quarter, these E/I programs have been regularly scheduled since April 2nd. On July 9th, NBC changed their line up which was regularly scheduled as of July 9th through the end of third quarter. Due to a technical error at the Bounce network, two E/I children's programs, "All In with Laila Ali" and "Everyday Health" which aired from September 10, 2016 through the end of the quarter, were missing the E/I graphic. The network was put on notice and it remedied the issue, and WAFF has implemented additional procedures to monitor the presence of the E/I graphic. Station may rebroadcast some or all of the affected programming in the fourth quarter.
