Digital Core
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	3.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"WHADDYADO" (What Do You Do) is a half-hour weekly educational series designed to inform, educate, inspire and entertain children 16 & under (specific target audience is 13-16) about the world around them. Each episode is an educational life-lesson, based in reality, intended to prepare young people for potential situations that could easily crop up at any time, anywhere. Using a combination of actual dramatic footage, re-enactments, and demonstrations, "WHADDYADO" provides a compelling look at perilous situations that have occurred in real life. Then, using interviews with the participants, and instructions from experts, we learn what the proper reaction should be when faced with similar life-threatening circumstances. Also, in an effort to help young people make the right decision at the right time many episodes will feature a Moral Dilemma segment.

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Dragonfly TV showcases our most eager young scientists in a way that encourages all kids to discover the wonders of science. It's a new approach in science television for kids, because it features ordinary children and their own science investigations. The programs highlight children "doing" projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. Whether shooting over moguls on free-ride skis, getting up close and personal with alligators, or cooking up experiments in their own kitchens, the Dragonfly TV kids empower viewers to explore, question, and learn. In each episode, children tell how they pursued their own investigations, communicating the infectious excitement that comes with making their own discoveries.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Aqua Kids guides children on fun and educational adventures all over the country, to learn how ecosystems connect and what young people can do to make a positive difference for the world they will inherit. Aqua Kids was created by George A. Stover III, a professional TV producer, videographer and scuba diver. While filming underwater documentaries all over the world, he noticed the oceans beginning to decline, and decided to use his profession and influence to educate people about this alarming trend. He realized that to make lasting change, he had to reach the kids and teens of the world. So he and his wife Carol gathered the first group of Aqua Kids and shot a pilot for the new TV show in 2000. It took 5 years for networks to warm up to the idea of kids swimming with sharks and crawling through swamps but in 2005, full seasons of Aqua Kids began airing, and the show has grown every year. Prestigious scientific agencies, organizations and universities all over the country partner with us and work together with us to help create content for our program. It is our mission to bring this message of conservation and awareness to kids, teens and adults everywhere, and educate others to create a healthier and more sustainable planet for all.
