Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	WUPL aired public service announcements during this quarter targeting children ages 16 and under addressing issues such as, autism, child abuse, school dropout and child literacy. NON-BROADCAST EFFORTS: During this quarter, a number of WWL-TV's on-air anchors /reporters and off-air employees volunteered their time to meet and speak to students at various elementary, middle and high schools in the New Orleans and surrounding areas, addressing such issues as the importance of staying in school and achieving an education, career opportunities in journalism and broadcasting, the dangers of drug and alcohol use, and other issues children face in today's society. A complete list of these activities are placed in our Public Files under "Non-Broadcast Efforts".

Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and Marine Biologist, Danni Washington, exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers are not the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants; architects who design living buildings; and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will show kids how understanding nature can help them make the next great discovery. After all, nature knows best!
