Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	WILD AMERICA is targeted to children ages 13-16. The key educational objective of the program is to familiarize children with the animals of the North American content, their interaction with other animals and their environment. Throughout the series emphasis will be placed upon protecting endangered species and the impact that humans have while interacting in their environment.Each episode of the series will be specific to a particular animal. Topics will range from basic food gather, mating, natural enemies, relationships to other animals, and the interaction of the specific ecology on the survival of the species.We expect that children viewing the program will achieve a greater understanding of nature and specific animal species because of the up-close and detailed photography of the series. Through this understanding, it is hoped children will better relate to the natural environment as it exist in North American and learn to protect its natural species.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Career Day is a television program that introduces young adults to career exploration and awareness. Students often do not know what they want to do and are unsure of potential interests they may have that could be a career. Career Day provides an avenue to view experts in their respective fields as they discuss their work, the education/training to prepare for the job, and experiences that led them to choose their career. To encourage students to make informed decisions, young adults must be introduced to career awareness, such as the concept that success in most careers requires education and training. The program's motivational and inspirational message of each guest empowers audiences of all ages to investigate career opportunities, which has been proven to enhance academic performance, facilitate high school completion and encourage post-secondary education.

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training, Steve Spangler, encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers step by step demonstrations of do it yourself experiments that amaze, but which also relate back to solid principles of science. For instance, Steve Spangler became nationally known with a video showing him dropping the candy "Mentos" into a bottle of diet soda. It erupts in a geyser of soda. On Xploration DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts that way to the candy. Xploration Station DIY Sci is a half hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Nature knows best will inspire and educate audiences of all ages. Host and marine biologist Danni Washington exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants, architects who design living buildings and roboticists who are making their designs bigger, stronger and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery. Xploration Nature Knows Best is a half hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education.

Program Title	Career Day (D-2)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturdays 8:00am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Career Day is a television program that introduces young adults to career exploration and awareness. Students often do not know what they want to do and are unsure of potential interests they may have that could be a career. Career Day provides an avenue to view experts in their respective fields as they discuss their work, the education/training to prepare for the job, and experiences that led them to choose their career. To encourage students to make informed decisions, young adults must be introduced to career awareness, such as the concept that success in most careers requires education and training. The program's motivational and inspirational message of each guest empowers audiences of all ages to investigate career opportunities, which has been proven to enhance academic performance, facilitate high school completion and encourage post-secondary education.

Program Title	Xploration DIY Sci (D-2)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturdays 11:30AM
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training, Steve Spangler, encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers step by step demonstrations of do it yourself experiments that amaze, but which also relate back to solid principles of science. For instance, Steve Spangler became nationally known with a video showing him dropping the candy "Mentos" into a bottle of diet soda. It erupts in a geyser of soda. On Xploration DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts that way to the candy. Xploration Station DIY Sci is a half hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home.
Other Matters (24 of 24)	
Program Title	Xploration Nature Knows Best (D-2)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturdays 12:00 PM
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Nature knows best will inspire and educate audiences of all ages. Host and marine biologist Danni Washington exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants, architects who design living buildings and roboticists who are making their designs bigger, stronger and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery. Xploration Nature Knows Best is a half hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education.
