Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	The station's children's core programming average set forth in the "Digital Core Programming" section of this report takes into account the fact that the First Quarter 2017 only had 12 Saturdays. Because all of the station's core programs aired on Saturdays, the calculation in the Digital Core Programming section is "artificially" low as a result of the calendrical quirk.

Program Title	Saved by the Bell (ME-TV 10.2)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sundays 9am - 9:30am CT
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Saved By The Bell" is a weekly television series targeted to teens 13-16 years of age, which explores social themes and coping strategies through the daily school life of six teen-aged friends at Bayside High who help each other make the most of growing up in a complicated world. The multi-ethnic cast members serve as role models for young teen viewers as they deal with such issues as dealing with the death of a loved one, the right to say "no," the meaning of heroism, teenage alcohol use and other issues of particular concern to young teens. The Children's Television Act of 1990 ("CTA") imposed a requirement on the FCC to consider in its review of television station renewals the extent to which the licensee had served the educational and informational needs of children through its overall programming, including programming specifically designed to serve such needs. In adopting the CTA, Congress recognized a number of existing programs that already served such needs and in that context specifically mentioned "Saved By The Bell" in the Senate Report that accompanied the CTA, describing the program as "valuable" and "aimed at high school students and addressing typical problems and conflicts faced by teens." In adopting the regulations that implemented the CTA in 1991, the FCC also noted that Congress had singled out "Saved By The Bell" for mention: "The legislative history provides a wealth of examples of children's programming that is educational and informational. These include . . . "Saved By The Bell" (topical problems and conflicts faced by teens) . . . . Where determinations of whether a program qualifies as 'educational and informational' are in doubt, we will expect licensees to substantiate their determinations. We will rely on the guidance given in the legislative history, including the specific examples cited above, in ruling on the sufficiency of such demonstrations." Consistent with these findings, the FCC has granted the renewal applications of television stations that have relied on "Saved By The Bell" to satisfy their obligation to air programming specifically designed to serve the educational and informational needs of children aged 16 years and under.

Days/Times Program Regularly Scheduled	Sundays 9:30am - 10am CT
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Saved By The Bell" is a weekly television series targeted to teens 13-16 years of age, which explores social themes and coping strategies through the daily school life of six teen-aged friends at Bayside High who help each other make the most of growing up in a complicated world. The multi-ethnic cast members serve as role models for young teen viewers as they deal with such issues as dealing with the death of a loved one, the right to say "no," the meaning of heroism, teenage alcohol use and other issues of particular concern to young teens. The Children's Television Act of 1990 ("CTA") imposed a requirement on the FCC to consider in its review of television station renewals the extent to which the licensee had served the educational and informational needs of children through its overall programming, including programming specifically designed to serve such needs. In adopting the CTA, Congress recognized a number of existing programs that already served such needs and in that context specifically mentioned "Saved By The Bell" in the Senate Report that accompanied the CTA, describing the program as "valuable" and "aimed at high school students and addressing typical problems and conflicts faced by teens." In adopting the regulations that implemented the CTA in 1991, the FCC also noted that Congress had singled out "Saved By The Bell" for mention: "The legislative history provides a wealth of examples of children's programming that is educational and informational. These include . . . "Saved By The Bell" (topical problems and conflicts faced by teens) . . . .
