Host and Marine Biologist, Danni Washington, exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants, architects who design "living buildings," and roboticists who are making their designs stronger based on animals. This series will show kids how understanding nature can help them make the next great discovery. After all, nature knows best!

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This live action series (based on the comic strip You Can with Beakman by Jok Church) proves that learning about science and nature can be fun and fascinating. Performance artist Paul Zaloom stars as the slightly nutty but never boring scientist whose answers to kids' questions reveal the relationships between principles of science and nature and how they impact our daily environment. Topics are addressed with cutting-edge humor and state-of-the-art visuals designed to make learning fun. Joining Beakman in his quest onward for science are Josie (Alanna Ubach), his bright young apprentice, and an oversize, sarcastic rat named Lester (Mark Ritts). Watching the show on their South Pole TV set are penguins Herb and Don, a cynical duo who provide comments and quips as Beakman struts his scientific stuff.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	KNIN (9.1) experienced a signal failure due to severe weather and was off the air on Thursday, March 30th during the last 8 minutes of Xploration: Weird But True. Therefore, the March 30th airing did not air in its entirety and has been noted in this report as a preemption. No makegood was necessary because KNIN normally airs 3.5 hours of e/i programming per week which is over the required minimum of 3.0 hours per week. KNIN's secondary digital channel (9.2) changed network affiliations from the H&I Network to the MeTV Network on March 1, 2017. With the affiliation switch, KNIN (9.2) maintained its 3 hour average of regularly scheduled e/i programming throughout the entire quarter. Additionally, KNIN added a third digital sub-channel on (9.3) with the addition of Grit TV on March 8, 2017. Grit TV averaged the FCC required 3 hours per week of e/i programming for the 3 weeks that it was broadcasting on 9.3 during 1st Quarter 2017.
