Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Jack Hanna's Animal Adventures is a half-hour live action television program designed to meet the educational and informational needs of children 13 to 16 years of age. In each episode the cameras follow Jack as he spends time with nature's creatures across the continents. Jack talks with people that are knowledgeable about each animal and habitat, teaching as he goes. Each episode is designed to reveal to children the world around them in a way that presents positive role models and pro-social values within an environmentally responsible universe. In order for parents, children, and listing services to clearly identify the program as on that fulfills the FCC description of a program that meets kids' educational television needs, the beginning of each program includes a 15 second video billboard with the recommended rating TV-G E/I.
