Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Information is the beginning of knowledge creation and the episodes in ON THE SPOT manage to deliver a great deal of information very quickly in an interesting way. Mainly, the show is entertaining and it is not hard to imagine that this program and the popcorn nature of its fast moving content would be equally appealing to adults. The mood, tone and open quality of the program makes viewing it as much fun as watching, a good game show. But it moves faster than a game show-perfect for young viewers in the mid-21st century. This program is marketed by the syndicator as being specifically designed to further the educational need of children, as educating and informing children as a significant purpose, and otherwise meets the definition of Core Programming as specified in the Commission's rules.
