Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"Animal Atlas" is an entirely appropriate title for this engaging and informative series. Just as browsing through a good atlas makes information about terrain and natural boundaries accessible and appealing, the program brings information about the natural world of animals to viewers in a non-didactic, entertaining we lts approach in no way diminishes the learning that takes place when observations lead to conclusions - and young minds will draw many conclusions about the natural world shown in this series. These conclusions are consistent with nationally published curriculum goals in the natural sciences. They include concepts such as the functions of animals in an ecosystem (predator/prey relationships, etc.), the element of animal classification, and the general emphasis on life science.

Culture Click is a weekly half hour series that explores the genesis of and reasons behind cultural events that permeate our everyday lives. Developed and produced for viewers aged 13 to 16, host Nzinga Blake opens each episode from her virtual reality set with a list of whats trending on search engines that week. These topics serve as a jumping off point for a deep dive into the culture viewers 13 to 16 will embrace. Each week Nzinga will analyze and answer the questions that shape our society using the power and speed of the internet and user generated questions and content. Experts in pop culture will join her to add insight and historical perspective. And most importantly, viewers will come away with a weeks worth of "aha" moments to share with their friends and family. Six degrees of seperation takes on a whole new meaning, and theres no limit to what viewers will learn when they experience Culture Click.
