| Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3. | During second quarter 2017, KCRA-TV aired 4 additional episodes of the regularly scheduled core children's program, "Teen Kids News" back-to-back, which created a "marathon" of the program on Sunday, May 7. These additional airings of the program were intended to help increase audience awareness of the program to further educate and inform teen children viewers about topical, current news events during a period of time that our nation was experiencing a new Presidential administration, significant foreign policy events, and when significant and socio-cultural events and developments were occurring. These additional core episodes were promoted via on-air crawls, and the television listing services were notified in advance of their scheduling. One or more episodes of children's programming that was preempted during the quarter was not rescheduled. The Digital Core Programming Summary Section of this report would not permit the station to include preemption reports for such unrescheduled preemptions, and FCC Staff has advised that no preemption report for such unrescheduled episode is necessary. |
