Digital Core Program (1 of 12)	Response
Program Title	Heart of a Champion with Lauren Thompson
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays 10-10:30a, main digital
Total times aired at regularly scheduled time	7
Total times aired	13
Number of Preemptions	6
Number of Preemptions for other than Breaking News	6
Number of Preemptions Rescheduled	6
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Targeting a young teen audience 13 to 16, Heart of a Champion with Lauren Thompson features the powerful and inspiring stories of successful athletes who exemplify what it really means to be a champion. Hosted by Lauren Thompson, host of Golf Channels Morning Drive, Heart of a Champion with Lauren Thompson introduces audiences to professional and amateur athletes who have overcome obstacles to ultimately achieve transcendent moments in the world of sports. Heart of a Champion with Lauren Thompson proves that a champion is not only defined by their speed, strength and agility, but also by their grit, resiliency and heart. This quarter viewers learn about what it takes to be a Paralympic swimmer, Russian culture, the history of the U.S. Womens Open, and a brief background on fashion influence. Inspiring messages include understanding and embracing where you come from can have a large impact on where you go in the future. Do not be afraid to be yourself; viewers learn about the history of womens collegiate golf and steps to take to become a female golfer, how to train to become a distance runner and track runner, do not be afraid to be the first to do something, your ambition can have a lasting impact on others and inspire future trailblazers; viewers learn what a sports journalist does, steps to take to be in the NHL, steps to be a successful junior golfer, and about the sport of ice skating and learn not to get too caught up on winning that you lose focus on other things in life. During this quarter, Heart of a Champion aired primarily Saturdays at 10am due to live sporting events on NBC. If there was no live NBC sporting conflict the program aired in its secondary time period, Saturdays at 12:30pm. The show was moved 6 times during the quarter due to live sporting events, all airing in the secondary time period.

Does the Licensee identify the program by displaying throughout the program the symbol E/I?	Yes

Days/Times Program Regularly Scheduled	Saturdays, 10:30-11am (main digital)
Total times aired at regularly scheduled time	12
Total times aired	13
Number of Preemptions	1
Number of Preemptions for other than Breaking News	1
Number of Preemptions Rescheduled	1
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wilderness Vet hosted by renowned veterinarian, Dr. Michelle Oakley, features compelling stories from one of the most rugged areas on the planet, the Yukon. Dr. Oakley travels to homes, farms and wildlife preserves across the Yukon to help animals in need. Wilderness Vet will bring viewers closer than ever before to wild animals in their native habitats by showcasing the hard work and dedication involved in their rescue and rehabilitation. The program reaches audiences of all ages, but is targeted to the young teenage group ages 13 to 16. Lessons imparted this quarter include all life has purpose. We must always care for the creatures of Earth both great and small; nothing can break the bond of a family, be it human or the animal kingdom. Family is of utmost importance. Together we can help each other accomplish any feat; persistence is crucial to success. We must have the energy and patience to work hard for our dreams; always be open minded and never quick to judge as patience and understanding are valuable qualities and always do what you are passionate about in life. Love what you do, let the passion drive you. Program aired in its secondary time period on 6/10

Digital Core Program (3 of 12)	Response
Program Title	Journey with Dylan Dreyer
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays, 11-11:30am Main Digital
Total times aired at regularly scheduled time	12
Total times aired	13
Number of Preemptions	1
Number of Preemptions for other than Breaking News	1
Number of Preemptions Rescheduled	1
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Journey with Dylan Dreyer, led by NBC News meteorologist and Today Show Contributor, Journey with Dylan Dreyer, is a wondrous celebration of nature. Breathtaking cinematography will bring the targeted young teen viewers ages 13 to 16 up close and personal with the black bears of Montana to polar bears in the Arctic. The audience will have a unique platform to see animals in their natural habitat, including exploring the extraordinary migration of 1 and a half million animals traveling over 500 miles across the Serengeti in Tanzania and Kenya. Journey with Dylan Dreyer will explain many questions surrounding the behaviors of animals, big and small and the world in which we live. Viewers learn protecting our world and its natural resources is of utmost importance. We must respect nature and do our part for future generations; by helping to preserve and protect the environment, we will leave a better world for future generations. Our own space junk, even the smallest wayward nut or bolt, could cause collisions in the future as we further explore space travel. Also, we must limit carbon emissions, for when the levels of carbon dioxide in the atmosphere change, so does the climate; Human activity has caused severe damage to ocean habitats and threatens entire ocean ecosystems with collapse. One by one, fisheries have been depleted throughout the world. Viewers discover how the global fishing industry is estimated to be 2 to 3 times larger than what oceans can sustain. The most powerful and positive environmental changes will come from our combined individual choices; if you put your mind to it and are well prepared, you can accomplish anything and the Arctic remains one of the planets last wild frontiers. We must do our part to respect and protect the environment in order to preserve the fragile ecosystems within. Program was rescheduled in its secondary time period on 6/10 due to live sports

Program Title	Naturally, Danny Seo
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays, 11:30a-12nET (main digital)
Total times aired at regularly scheduled time	12

Total times aired	13
Number of Preemptions	1
Number of Preemptions for other than Breaking News	1
Number of Preemptions Rescheduled	1
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Naturally, Danny Seo is a live action, half-hour television program designed to meet the educational and informational needs of children aged 13-16. Naturally, Danny Seo is a series about seeking a healthier lifestyle by learning the science behind eating well, exercising your mind and body, and caring for our planet. Host Danny Seo is a leading authority on eco-friendly living, and has devoted his career to the idea that caring for the environment can go hand-in-hand with enjoying time with family and friends, sharing delicious and healthy meals, while creating an environmentally friendly home. In each episode of Naturally, Danny Seo, viewers will be introduced to inspiring ideas from fun and healthy recipes, to easy and sustainable crafts. Viewers will learn how to embrace a natural lifestyle, easily and beautifully, along with quick tips on green living. Beneficial lessons learned this quarter include a visit to a bee farm, teaching how food can help relieve health symptoms, create do-it-yourself spider repellent, and the benefits of using organic produce, which is cultivated without using pesticides or synthetic fertilizers ; More than 13 million tons of used textile waste is generated each year in the U.S. Instead of throwing away old t shirts, find other ways to use them, like making a blanket. Anything plant based can be used to create compost, so before you throw it away, research if it is compostable; how to combine vegetables, fruits, and honey to make popcicles as the fruit juices and honey act as natural sweeteners and the nutrients and anti inflammatory properties in goat milk can help reduce eczema, psoriasis and acne and giving items new purposes can help create something unique, save money and prevent waste Live sporting event preempted the episode on 6/10 which was rescheduled the following week

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>The Voyager with Josh Garcia is a live action, half hour television program designed to meet the educational and informational needs of children aged 13 to 16. The Voyager with Josh Garcia takes viewers on an exciting and immersive journey around the globe with world traveler and host, Josh Garcia. Each episode gives audiences access to the worlds most incredible destinations as Josh seeks out the truly authentic experiences one can only find when shown by a knowledgeable and passionate guide. In each episode, Josh learns how to prepare an authentic, regional meal, visits a local artisan to learn about their trade and craft, and samples the culture while learning about the heritage of the regions population, showing viewers what is so unique about each city he visits. The Voyager with Josh Garcia brings viewers on an enthralling adventure to explore the people and cultures that make our world so breathtaking. Traveling lessons include noticing the architectural details of old, historic buildings can sometimes feel like a journey into the past; reflecting on past experiences can reveal things that you might not have noticed in the moment at the time you experienced it. Contemplation can reveal bonus features from your lived experiences; taking time to visit a culture that you are not familiar with can provide you with a global perspective; sometimes doing things by hand can yield the best results. When harvesting herbs and preparing certain dishes, using your hands instead of machines can often result in the best tasting dish and multigenerational artisans are able to keep cultural art forms alive by handing down those crafts through generations of family members. This allows historical art forms to carry on into the future. The program was preempted twice during the quarter and rescheduled in secondary time periods</p>

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Give , targeting a young teen audience, introduces viewers to the world of philanthropy through the stories of small charities making a big impact. The series features NBC News correspondent and the founder of UNICEFs Next Generation, Jenna Bush Hager, esteemed actor Blair Underwood, and passionate celebrity philanthropists from film, television, music, sports, and business who are all on a mission to inspire others to do good. In each episode, one of these celebrity ambassadors will visit two charities that use innovation, best practices, and dedication for change in their communities and the world. With the help of some of the countrys top foundations, we meet these inspiring individuals to see how they do it through the eyes of our celebrity ambassadors. This quarter valuable lessons learned include reading aloud is one of the most important activities to become a successful reader. When you read aloud, your vocabulary grows, as does your confidence; owning a pet can be a long-term commitment to caring for the health and wellbeing of your furry friend, plus pets can provide emotional support for their owners; camp programs can provide individuals with opportunities to learn new skills, harness creativity, strengthen social skills, and boost confidence; when problem solving, stepping back to look at the big picture of a situation can provide insight on how to get creative and offer solutions that you might not have come to otherwise and philanthropic organizations working with youth of color to empower them to reach higher can pave the way for a new wave of industry professionals of color. Empowering youth to have the skills and confidence necessary to succeed can make for a stronger workforce in the future. There were two program preemptions during the quarter. Shows were rescheduled in secondary time periods

Total times aired	13
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. Spawned by the Obama administration's focus on accelerating student learning in science, technology, engineering and math with a determination to help the US remain competitive in this arena, these family oriented programs strive to cultivate interest in STEM fields, develop strategies for improving knowledge as well as demonstrate STEM related challenges and solutions. This quarter host Philippe Cousteau looks at ways scientists are measuring the health of our forests protecting from invasive plants and how volunteers are planting trees in order to create an urban forest; in the Bahamas. Philippe gets up close underwater with Great Hammerhead sharks and join a professional free diver to look at the worlds deepest saltwater blue hole; from oceans to mountains viewers follow the paths of animal migrations; from the world of insects learn how research helping to control invasive fire ant populations and a up close look at the complex societies ants create and how science is helping us to prepare for natural disasters from hurricanes, avalanches, floods and earthquakes.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This half hour weekly series produced for the 13 to16 target audience will attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet. Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. The series is produced with the intention of increasing and expanding our target audience interest in the field of STEM education. This quarter a look at recent discoveries that are bringing scientists closer than ever to finding alien life; a look at a new generation of satellites that can provide instant images of our planet and bring high speed internet to every human on Earth; robots that are leading the way to first explore extreme environments, both to Mars, and other destinations in the future; host Emily Calandrelli explains why Pluto is no longer a planet and who some scientists believe there is another planet in our solar system that has not been discovered yet

This series, produced in partnership with National Geographic Kids, is hosted by the brother sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the Weird But True science at play all around us. With a mix of graphics and handmade art, this EI series is fun, playful and educational. Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. XPLOATION Weird But True is a half-hour weekly EI series produced with the intention of increasing and expanding our target audience interest in the field of STEM education. This quarter hosts Charlie and Kirby explain how humans domesticated and developed dog breeds and introduce viewers to some literal super dogs to better understand just how capable canines have become at being mans best friend; viewers learn more about animal headgear such as what is an antler, How is it different from a horn, What are they used for, Where do beaks fit into this whole thing; invasive species are being tracked, how species invade unnatural habits and why it is important to monitor them to protect the ecosystem; and the strange world of extreme weather What is the difference between a hurricane and a tornado Why does weather change And how do storms form. The brothers investigate space rocks, what is the difference between an asteroid and a comet. And what happens when interstellar debris collides with Earth.</p>

<p>Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.</p>	<p>Station WBBH promotes positive reinforcement to the young viewing audience through the embrace of NBC network campaign, The More You Know, and expanding the national franchise to a local base. Since 1989, The More You Know has brought the nations most important social issues to the forefront, and remains a trusted voice for sharing knowledge to improve lives and inspire action. The More You Know comprehensive website (themoreyouknow.com) includes in depth resource and referral information on the campaigns important focus issues including: HEALTH fighting childhood obesity, encouraging nutrition and physical fitness ENVIRONMENT encouraging everyday actions that reduce environmental impact EDUCATION recruiting new teachers and promoting their long-lasting impact DIGITAL LITERACY & INTERNET SAFETY sharing online safety tips and information and DIVERSITY embracing differences and promoting inclusion, tolerance and respect. Also featured on site is The More You Know Learning series Growing Up Online, a free eBook on digital literacy and Internet Safety. Growing Up Online is an important tool to initiate conversation with children about online safety. The eBook is a media rich, two part learning resource that provides easy to use information about navigating the digital world in a unique and engaging way. Part one includes safety tips, discussion questions and key takeaways for parents and teachers. Part two features four entertaining video comic books for children, focused on real situations that come up when kids go nline. Additional content on the site includes public service announcements, behind the scenes videos, a general overview, a talent directory, and a list of the campaigns accolades such as the numerous prestigious Emmy and Peabody awards. In 2017 WBBH entered into its 28 year association with the Lee Public Schools Foundation in producing and presenting The A Team Challenge. This high school quiz show, hosted by WBBH senior meteorologist Robert Van Winkle recognizes and applauds the academic achievements of area students. More than 30 area high schools compete in this weekly quiz game that test students abilities in math, geography, social studies, literature and general knowledge. The weekly games air on area cable systems on the educational channel as well as the closed circuit school channel. Beginning with the quarter finals in April the matches also aired on WBBH primary channel as follows 4/1 12:30p to 2:30pm the A Team Challenge Quarter Finals; 4/9 12n to 1pm The A Team Semi Finals and 4/16 from 12n to 1pm the A Team Challenge Finals. WBBH is also a proud sponsor of the annual Golden Apple Awards which recognizes area teachers for the positive impact they have on their students in and out of the classroom. Students nominate their teachers for the prestigious award. Leading up to the hour primetime special, WBBH news airs human interest pieces on these nominated individuals. On August 9th from 7-8pm WBBH produced and aired the Lee County Golden Apple Awards where some of the classrooms finest educators were honored. WBBH on air talent and management personnel continue to give their individual support on behalf of the station as special guests, lecturers, and hosts to area youth events, organizations and in the classrooms throughout the market. Station tours are also available for classrooms and youth organizations to schedule. Many staffers serve on committees or boards of organizations that target services to the youngsters in our area from mentoring to overseeing allocations of financial assistance. The station is an active business participant in the STEM community project. This program in conjunction with the area educational systems promotes the advancement of Science, Technology, Engineering and Math educations. In addition we offer station tours to various youth organizations and classrooms giving a glimpse of the behind the scene operations.</p>

Program Title	Xploration Awesome Planet
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sundays, 9:30-10a ET Secondary Digital
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. Spawned by the Obama administration's focus on accelerating student learning in science, technology, engineering and math with a determination to help the US remain competitive in this arena, these family oriented programs strive to cultivate interest in STEM fields, develop strategies for improving knowledge as well as demonstrate STEM related challenges and solutions.
