Digital Core  
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.5
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	504.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	16.5
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Ariel & Zoey & Eli, Too (AZE2), a musical variety show that is driven by three siblings, empowers children to accomplish their goals and their dreams. AZE2 accomplishes this through interviewing people who excel in their profession and have a positive message for kids, introducing guests who perform different genres of music, and presenting musical performances by the cast members themselves. These cast musical performances show children they can write their own music and the importance of teamwork. Music on the show is produced by Emmy Award winner David Barrett. He and Brian Brill (another Emmy winner) ensure that the music is tailored for the young audience. All songs offer a positive message about life. Every episode begins with the song "Sweet Company" which sends the positive message of friendship and ends with the singing of End of Another Day which encourages the viewer to stay optimistic about tomorrow. Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Aqua Kids provides a unique vehicle for young people to learn about the diversity of marine animals around the world, emphasizing the importance of preserving fragile aquatic habitats and encouraging children to take an active role in protecting the future of their community and the world. The program provides a window into the management and preservation of unique habitats and species through the eyes of kids and their hands-on collaboration with science researchers and educators. The messages delivered by Aqua Kids are given by a creative and resourceful host, Molly McKinney, whose scientific background is evident in the show. The other young hosts, whose ages range from pre-teen to late teens, are equally entertaining and informative. The young viewers identify with these young hosts and imagine themselves in the role of the scientist and as someone who could have a positive impact on the environment. The format of young student scientists presenting information on location in a variety of aquatic settings is both entertaining and informative. (Showplace TV Syndication)

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Veggie Tales is a children's series featuring animated vegetables who teach life lessons through stories. Hosted by Bob the Tomato and Larry the Cucumber, each episode begins by establishing the problem, uses short stories to parallel the situation with a problem and solution, and ends by reiterating the proposed solution and the life lesson learned through the experience. The show communicates social-emotional messages based upon the core values of honesty, kindness, forgiveness, and appreciation for all, using music, unusual characters, and allegorical storylines. (Showplace TV Syndication) Veggie Tales is a television series designed to meet the educational and informational needs of children 4 to 8 years of age. Veggie Tales is an animated television program with the intention to educate young children in accordance with the FCC Children's Television and Informational Program Guidelines. Each episode of Veggie Tales teaches children about moral responsibility and choices and invites them to celebrate their own creation. Each story features positive values and re-enforces the benefits of selflessness, care of neighbor and doing to others as you would have them do unto you.

Total times aired	26
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	6 years to 10 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The New Howdy Doody is a 1975 series which is known to its viewers for Buffalo Bob in his cowboy attire and a cast of human characters such as Clarabell the Clown and Chief Thunderthud as well as puppets (i. e., Howdy Doody, Dilly Dally, Flub-a-Dub, etc.). Children sat on stage in the Peanut Gallery, thus making this show a forerunner of interactive programming we enjoy today. The primary value of the series is to educate and entertain elementary school-aged children. In addition, both older children and monitoring adults will find this series amusing and quite charming as Howdy Doody is a timeless character who has an interactive quality. Educationally, the series offers opportunities for parents and teachers to teach lessons related to language, character development, science, and listening skills. In accordance with the 1990 Children's Television Act (ATC) intended to increase educational and informational programming for children on television, HOWDY DOODY clearly meets the goals of providing children with a television show that meets CORE requirements of the FCC as follows: 1. Issues such as bullying, establishing trust and courtesy are faced and resolved in the episodes. 2. Responsibility is presented in a positive and encouraging manner. 3. Making choices in life, mastery of attachment and separation are emphasized in each episode. 4. Issues of competition and loyalty are conveyed throughout the series. (Showplace TV Syndication)

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	"America's Heartland" is a weekly half-hour series featuring everyday Americans and their families, telling fascinating stories across America's heartland. From learning how to make maple syrup to riding with teenage ranchers, this series explores the various ways of life in the current United States, while showcasing the diversity of how people live and work. Each episode visits several locations and introduces teen viewers to ordinary Americans who sometimes have extraordinary occupations. The series also highlights the history of different regions of the country while providing important facts about each place visited. Pursuant to the Children's Television Act of 1990, "America's Heartland" will satisfy the FCC's Children's Programming requirement and can be classified as either Core or Non-Core programming. "America's Heartland" serves the educational and informational needs of children 13 to 16 years of age with its program content, including the importance of learning about farming and feeding the world. Teenage students are presented with fascinating stories and introduced to exceptional individuals who operate family farms throughout America's heartland.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Steal The Show provides CORE programming in the areas of music, music composition, the music recording process and musical instruments. Ariel, Zoey and Eli Engelbert of the EI program Ariel & Zoey & Eli Too work to write and record an album with Grammy Winner Jim Peterik. All aspects of the process are covered- 1st) creating the melody, 2) writing the lyric, 3) creating harmonies, 4) developing instrumentals, and 5) recording the song in the studio. With schools across the country cutting funding to music related programs, Steal The Show fills an important void. Students will be empowered with the knowledge and skills they will broaden and hone as the follow Ariel, Zoey and Eli on their journey with one of the most prominent songwriters of the past 20 years. Program Title	The Country Mouse and the City Mouse Adventures
Origination	Network
Days/Times Program Regularly Scheduled	Weekdays at 7:30am on KAIL's digital sub-channel, 7.2 starting on 4/24/17

Total times aired at regularly scheduled time	50
Total times aired	50
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	4 years to 9 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Country Mouse and the City Mouse Adventures employs the fun and fascinating world-wide jaunts of a pair of adorable mice to present a body of important new learning. As Emily, the practical Country Mouse, and her sophisticated City Mouse cousin, Alexander, visit friends and family around the globe, they encounter non-stop delight along with non-stop problems, complications and mysteries. By stepping in, helping out and dealing with the situations with which they are confronted, they teach youngsters valuable "learning to learn" skills, centering on discovery, investigation and analysis... associated personal-character and pro-social attitudes... and intriguing core-knowledge learning focused on world history, geography and language. Tackling new, perplexing and seemingly difficult situations is likely to be seen as daunting to many young viewers. Most children let myriad questions and conundrums go by - thereby missing out on valuable information and investigative practice, and putting a chink in their own feelings of self-efficacy along the way. In the course of "he Country Mouse and the City Mouse Adventures", Emily and Alexander follow a different path - dealing with problems and dilemmas head on. In doing so, they model the willing to help... the curiosity to ask appropriate questions... the openness to see the possibilities and formulate plausible hypotheses... the skills in observation and fact-finding to gather new knowledge... the logical reasoning to assess knowledge gathered... the industriousness and perseverance to press on in the face of difficulty and disappointment... the judgment to draw appropriate conclusions... and the courage to act on them. Each of the mice's adventures is furthermore based on a real historical event that took place in far-flung lands across the globe. Emily and Alexander investigate an art crime in Paris' Louvre Museum, a cable car mishap in San Francisco, the disappearance of a prized tiger in India, and so much more. By means of observation, kids are able to gain a close-up and education-packed view of history, geography, and world-wide cultures, customs, and language. (Miki Baumgarten, Ph.D.)

Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	2 years to 5 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>The Busy World of Richard Scarry is designed for two to five year olds. Like the Scarry books themselves the TV series uses themes that are congruent with the interests of pre-school and early elementary school children. These include...</p> <ul style="list-style-type: none"> <li>- love of parents</li> <li>- mastery (of all the motor, language and social skills that they see in the world around them)</li> <li>- power (who calls the shots)</li> <li>- possession, (It's mine!)</li> <li>- personal routines</li> <li>- eating, dressing, sleeping</li> <li>- family living</li> <li>- cooking, recreation, celebration.</li> </ul> <p>The aim of the series is to make television a positive force in the lives of these children:</p> <ul style="list-style-type: none"> <li>- to stimulate imagination and foster vicarious play.</li> <li>- to teach pro-social behavior: generosity, friendliness, persistence, altruism, understanding of others' points of view, empathy, acceptance of others' idiosyncrasies</li> <li>- to help children move beyond family attachments to the world of friendships and community.</li> <li>- To help children develop skills on which academic learning depends: attention, language, memory, active processing of a story, interest in reading.</li> </ul> <p>Children will learn...</p> <ul style="list-style-type: none"> <li>- that friends and neighbors are nice to each other, share, cooperate, say supportive things, complement each other, take pleasure in each other's accomplishments, that friends are accepting of each other's foibles</li> <li>- clumsiness, silliness, forgetfulness, fearfulness, etc.</li> <li>- that a community is made up of grown-ups, children, helpful authority figures, people of many occupations: police, storekeepers, farmers, baker, butcher, repair persons of many kinds, doctors, nurses, firefighters, road workers, bus drivers, photographers, etc.</li> <li>- That the world is full of interesting things to see and do.</li> <li>- That there are far away countries to learn about and travel to, where people have different customs, dress, food, etc.</li> </ul> <p>It is our intention that all segments will -</p> <ol style="list-style-type: none"> <li>1. Counteract gender stereotypes (both in roles and interactional style).</li> <li>2. Use language appropriate to the target age.</li> <li>3. Model standard grammar.</li> <li>4. Refrain from zapping, crashing, and smashing animated characters (Preschoolers have trouble distinguishing between animation and reality).</li> <li>5. Model safe and responsible behavior.</li> <li>6. Keep humor at child's level.</li> <li>. Encourage parental watching with occasional humor aimed at the adult. There is good evidence that the educational value of any program is enhanced when an adult is there to talk with the child about it.</li> <li>8. Encourage active rather than passive viewing</li> </ol> <ul style="list-style-type: none"> <li>- story elements that allow viewer to generate hypotheses and make predictions about outcome.</li> <li>9. Use well-established attention getters for this age range: animation, children's voices, and music.</li> <li>10. Captivate children with different learning styles:</li> </ul> <ul style="list-style-type: none"> <li>- For those who rely on visual stimulation there will be plenty to look at. Every Scarry scene is full of visual excitement.</li> <li>- For those who are predominantly tuned to the auditory and verbal, there will be interesting characters and story lines, conversation, music, and song.</li> <li>- Those attuned to movement will be captured by animation, action, the ever-present vehicles - bikes, motorcycles, trains, trucks, boats, tractors, road-graders, planes, etc.</li> </ul> <p>Language principles:</p> <ul style="list-style-type: none"> <li>- Keep dialogue simple</li> <li>- Avoid hard-to-process sentences (e.g. complex relative clauses, sentences with too many unpredictable elements</li> <li>- names, numbers, and unfamiliar words)</li> <li>- Avoid words with multiple meanings</li> <li>- Avoid ambiguous grammatical structures</li> <li>- Reduce the number of modifiers</li> <li>- Use positive words (taller rather than shorter), adverbial phrases, rather than adverbs (e.g. in an angry way, rather angrily)</li> <li>- Introduce unfamiliar words where context, visual elements, redundancy, and repetitions help to make meaning clear.</li> </ul> <p>The series "curriculum" is not sequential, but care has gone into the grouping of stories and interstitials that comprise each segment. The first segment has incorporated the familiar (The Three Fishermen), the mysterious in everyday life (The Talking Bread), and the exotic (Couscous the Detective). Each story has a simple plot line, enough continuity to facilitate understanding, but includes scene changes that allow children to develop early TV literacy skills</p> <ul style="list-style-type: none"> <li>- to understand and distinguish between scene changes that indicate simultaneous happenings in other locations;</li> <li>- and those that indicate temporal sequences.</li> </ul> <p>Keeping track of characters and holding events in memory through changes of scene requires considerable cognitive processing in a young child. The Three Fishermen introduces the main characters in the series, deals with family relations, every day frustration, and disappointment. Our characters stay cheerful and things turn out well in the end. There are one or two gentle environmental messages. Talking Bread leads the viewer into the wider community of Busytown. Daily life is full of mysteries. (Things disappear when we know we left them right there. We all hear spooky noises). No need to evoke the supernatural. Track down the logical explanation. In this segment suspense will keep attention high. The appearance of the doll in the first scene makes it possible for the viewer to anticipate the solution. Couscous the Detective brings travel to far-away places. In this script there are jokes and allusions for the parents. Viewer participation is invited from the outset as we search the crowd for Couscous. Pepe le Gangstair and the Dirty rats invite our disdain (and our viewers - often reluctant bathers themselves - are reminded of the negative side of being dirty and smelly). Justice triumphs and the bad guys are routed through cleverness rather than violence. The interstitials provide the explicit educational elements - compelling safety tips and information on how things work. The former will always try to go beyond the safety rule itself, and show the reasons for it or the effect of following it. The How things Work segments, along with the specific information they provide, are to help children notice, pay attention to, and think about relations of parts to wholes of objects in their world, to wonder about how things are made, and where they came from. In the first segment one of the interstitials explicitly reinforces the safety message that is implicit in The Three Fishermen. Life jackets must be worn in boats. The reason is clear. If we go overboard the lifejacket keeps us afloat. The first of How Things Work starts with something close to every young child's heart - the bicycle. It is well-known from children's drawings that they have no conception of how a bicycle works. For them, the important elements are pedals and wheels, with no understanding of how they are related. In this interstitial the children are shown and told about gears and chain. Through animation, close-up, audio reinforcing video, the workings can be highlighted, providing a light-hearted physics lesson. (Margie Golick, Ph.D.)</p>

Digital Core Program (18 of 18)	Response
Program Title	Wimzie's House
Origination	Network
Days/Times Program Regularly Scheduled	Weekdays at 7:00am on KAIL's digital sub-channel, 7.2 staring on 4/24/17
Total times aired at regularly scheduled time	50
Total times aired	50
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	3 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wimzie's House is targeted at 3 to 5 year old children and designed to contribute to the developmental and educational needs of children in this age group. The series will undoubtedly attract both younger and older children, as young as 2 and as old as 6 years of age. This wider demographic is referred to as an "entertainment audience," whereas the "education audience," the age range whose developmental characteristics were considered in creating story content, is the 3 to 5 year old group. It is reasonable to say that the entertainment target for Wimzie's House is 2 to 6 years of age while the education target is 3 to 5 years of age. Three to five year old children are accomplishing phenomenal growth and change in their physical, cognitive (language, perception, and intellectual), and social-emotional development. Growth and change in the physical domain impacts the range of opportunities they have to experience new environments and opportunities for social interaction. New environments and social interactions impact their socio-emotional development. And, their vastly increased language ability and growing cognitive capacity affects both their ability to regulate and express emotions and their ability to mentally represent their experiences. The integrated nature of their rapid development during this time period makes this a time when the child's imagination becomes vivid, complicated and exciting. Three to five year olds use their

imagination to assimilate new learnings, develop empathy and a sense of humor and begin to develop a conscience. Their imaginations and their fantasy play help children understand the complexity of the communities they are venturing into as they expand their range beyond home to schools, neighborhoods and social groups. Defining the needs of the target audience: The philosophy behind Wimzie's House recognizes that pre-schoolers are complex people. During these years, they need support as they learn to be self-sufficient and independent of their primary care-givers and as they open up to the world. A major national survey of children's emotional condition over the course of a decade found dropping levels of emotional competence based on parents' and teachers' assessments. Indicators of such behaviors as withdrawal, social problems, depression, anxiety, attention deficits, aggression and delinquency crept upward over the course of the study. (National Survey of Children's Health, 2005) Conversely, children who participate in programs designed to increase their social-emotional skills and understandings demonstrate more behaviors such as: talking about feelings and needs, listening, sharing and comforting, growing from conflict and adversity, prioritizing and setting goals, including others, and making conscious decisions. (McCown et al, 1998) As much as children need to learn to read, write and calculate, they need to be equipped with the skills that enable them to "identify and manage their emotions, to communicate those emotions effectively, and to resolve conflicts nonviolently." (Lantieri, 2005) Parents recognize how important it is for children to understand their own emotions, the emotions of others, and ways to deal with responses to emotions in oneself and in others. And yet, parents also need help building these skills in their children. One recent national survey found that only 38% of parents of young children feel totally sure they can tell if their child's emotional development is healthy and/or right for the age. (AAP, 1998) Research shows that secure, closely attached preschoolers are more capable of relating to their peers than are less secure children. Additionally, children who are helped to recognize and discuss emotions develop greater self-esteem, are better at judging the emotions of others, and are better able to practice self-control than children who have not been helped to develop emotional intelligence. (Dunn, Brown, & Beardsall, 1991) The series was designed around four principal learning goals: 1. To support the child in the development of his /her identity. 2. To urge the child to communicate and create bonds with people around him/her. 3. To encourage the child to adopt attitudes and behaviors that are open to differences. 4. To nourish a desire within the child for learning and discovering new things. Description of the educational and informational objectives of "Wimzie's House": The four principal learning goals cited above are supported and reinforced in the stories through themes drawn from the everyday experiences of young children. In each story, the familiar themes explicate a set of educational informational objectives. The educational/informational learning objectives are summarized below: Goal #1: To support the child in the development of his/her identity. Educational/informational learning objectives: Children will learn to appreciate who they are and their individuality. Children will learn to appreciate good character traits such as trust, honesty, perseverance, responsibility, Children will learn that it takes courage to go against group expectations. Children will learn that there are consequences to not fulfilling a commitment. Children will learn that imagination helps us understand ourselves and other people. Goal #2: To urge the child to communicate and create bonds with people around him/her. Educational/informational learning objectives: Children will learn that love can be expressed in many different ways. Children will learn that they have the right to ask for what they want but they may not always get it. Children will learn that talking about feelings can help and keeping feelings in can hurt. Children will learn to make, nurture, and value friendships. Children will learn that compromise and cooperation are necessary and important. Children will learn that competition is normal and that winning isn't everything. Children will learn that doing chores can be a way of showing love. Goal #3: To encourage the child to adopt attitudes and behaviors that are open to differences. Educational /informational learning objectives: Children will learn that being different can be a source of pride. Children will learn that different individuals have something unique to offer the world. Children will learn that skills and abilities are not specific to gender. Children will learn that it is hurtful to pick on, dismiss or make fun of those who are different. Goal #4: To nourish a desire within the child for learning and discovering new things. Educational/informational learning objectives: Children will learn to recognize the value of regular exercise. Children will learn to recognize and appreciate the value of eating a variety of healthy foods. Children will learn the value of several safety practices. Children will learn that recycling can be fun. Children will learn about ecology and the environment. Children will learn the reasons for and the practice of good manners. Children will learn the value of money. In summary, it is my judgement that the series "Wimzie's House" meets the criteria for furthering the educational, information needs of children aged 3 to 5. The principal goals of the series along with the educational/informational learning objectives are consistent with the recommended national standards for pre-school education recommended by the National Association for the Education of Young Children and several states including California, Texas, and New York. Thank you for the opportunity to work with you to bring this excellent program to the target age group. (Donna Mitroff, Ph. D.)

Program Title	The Country Mouse and the City Mouse Adventures	
Origination	Network	
Days/Times Program Regularly Scheduled	Weekdays at 7:30am on KAIL's digital sub-channel, 7.2	
Total times aired at regularly scheduled time	65	
Length of Program	30 mins	
Age of Target Child Audience from	4 years to 9 years	
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Country Mouse and the City Mouse Adventures employs the fun and fascinating world-wide jaunts of a pair of adorable mice to present a body of important new learning. As Emily, the practical Country Mouse, and her sophisticated City Mouse cousin, Alexander, visit friends and family around the globe, they encounter non-stop delight along with non-stop problems, complications and mysteries. By stepping in, helping out and dealing with the situations with which they are confronted, they teach youngsters valuable "learning to learn" skills, centering on discovery, investigation and analysis... associated personal-character and pro-social attitudes... and intriguing core-knowledge learning focused on world history, geography and language. Tackling new, perplexing and seemingly difficult situations is likely to be seen as daunting to many young viewers. Most children let myriad questions and conundrums go by - thereby missing out on valuable information and investigative practice, and putting a chink in their own feelings of self-efficacy along the way. In the course of "he Country Mouse and the City Mouse Adventures", Emily and Alexander follow a different path - dealing with problems and dilemmas head on. In doing so, they model the willing to help... the curiosity to ask appropriate questions... the openness to see the possibilities and formulate plausible hypotheses... the skills in observation and fact-finding to gather new knowledge... the logical reasoning to assess knowledge gathered... the industriousness and perseverance to press on in the face of difficulty and disappointment... the judgment to draw appropriate conclusions... and the courage to act on them. Each of the mice's adventures is furthermore based on a real historical event that took place in far-flung lands across the globe. Emily and Alexander investigate an art crime in Paris' Louvre Museum, a cable car mishap in San Francisco, the disappearance of a prized tiger in India, and so much more. By means of observation, kids are able to gain a close-up and education-packed view of history, geography, and world-wide cultures, customs, and language. (Miki Baumgarten, Ph.D.)	

Other Matters (10 of 16)		Response
Program Title	THE BUSY WORLD OF RICHARD SCARRY	
Origination	Network	
Days/Times Program Regularly Scheduled	Weekdays at 8:30am on KAIL's digital sub-channel, 7.2	
Total times aired at regularly scheduled time	65	

Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>The Busy World of Richard Scarry is designed for two to five year olds. Like the Scarry books themselves the TV series uses themes that are congruent with the interests of pre-school and early elementary school children. These include... - love of parents - mastery (of all the motor, language and social skills that they see in the world around them) - power (who calls the shots) - possession, (It's mine!) - personal routines - eating, dressing, sleeping - family living - cooking, recreation, celebration. The aim of the series is to make television a positive force in the lives of these children: - to stimulate imagination and foster vicarious play. - to teach pro-social behavior: generosity, friendliness, persistence, altruism, understanding of others' points of view, empathy, acceptance of others' idiosyncrasies - to help children move beyond family attachments to the world of friendships and community. - To help children develop skills on which academic learning depends: attention, language, memory, active processing of a story, interest in reading. Children will learn...</p> <p>- that friends and neighbors are nice to each other, share, cooperate, say supportive things, complement each other, take pleasure in each other's accomplishments, that friends are accepting of each other's foibles - clumsiness, silliness, forgetfulness, fearfulness, etc. - that a community is made up of grown-ups, children, helpful authority figures, people of many occupations: police, storekeepers, farmers, baker, butcher, repair persons of many kinds, doctors, nurses, firefighters, road workers, bus drivers, photographers, etc. - That the world is full of interesting things to see and do. - That there are far away countries to learn about and travel to, where people have different customs, dress, food, etc. It is our intention that all segments will - 1. Counteract gender stereotypes (both in roles and interactional style). 2. Use language appropriate to the target age. 3. Model standard grammar. 4. Refrain from zapping, crashing, and smashing animated characters (Preschoolers have trouble distinguishing between animation and reality). 5. Model safe and responsible behavior. 6. Keep humor at child's level. . Encourage parental watching with occasional humor aimed at the adult. There is good evidence that the educational value of any program is enhanced when an adult is there to talk with the child about it. 8. Encourage active rather than passive viewing - story elements that allow viewer to generate hypotheses and make predictions about outcome. 9. Use well-established attention getters for this age range: animation, children's voices, and music. 10. Captivate children with different learning styles: - For those who rely on visual stimulation there will be plenty to look at. Every Scarry scene is full of visual excitement. For those who are predominantly tuned to the auditory and verbal, there will be interesting characters and story lines, conversation, music, and song. Those attuned to movement will be captured by animation, action, the ever-present vehicles - bikes, motorcycles, trains, trucks, boats, tractors, road-graders, planes, etc. Language principles: - Keep dialogue simple - Avoid hard-to-process sentences (e.g. complex relative clauses, sentences with too many unpredictable elements - names, numbers, and unfamiliar words) - Avoid words with multiple meanings - Avoid ambiguous grammatical structures - Reduce the number of modifiers - Use positive words (taller rather than shorter), adverbial phrases, rather than adverbs (e.g. in an angry way, rather angrily) - Introduce unfamiliar words where context, visual elements, redundancy, and repetitions help to make meaning clear. The series "curriculum" is not sequential, but care has gone into the grouping of stories and interstitials that comprise each segment. The first segment has incorporated the familiar (The Three Fishermen), the mysterious in everyday life (The Talking Bread), and the exotic (Couscous the Detective). Each story has a simple plot line, enough continuity to facilitate understanding, but includes scene changes that allow children to develop early TV literacy skills - to understand and distinguish between scene changes that indicate simultaneous happenings in other locations; and those that indicate temporal sequences. Keeping track of characters and holding events in memory through changes of scene requires considerable cognitive processing in a young child. The Three Fishermen introduces the main characters in the series, deals with family relations, every day frustration, and disappointment. Our characters stay cheerful and things turn out well in the end. There are one or two gentle environmental messages. Talking Bread leads the viewer into the wider community of Busytown. Daily life is full of mysteries. (Things disappear when we know we left them right there. We all hear spooky noises). No need to evoke the supernatural. Track down the logical explanation. In this segment suspense will keep attention high. The appearance of the doll in the first scene makes it possible for the viewer to anticipate the solution. Couscous the Detective brings travel to far-away places. In this script there are jokes and allusions for the parents. Viewer participation is invited from the outset as we search the crowd for Couscous. Pepe le Gangstair and the Dirty rats invite our disdain (and our viewers - often reluctant bathers themselves - are reminded of the negative side of being dirty and smelly). Justice triumphs and the bad guys are routed through cleverness rather than violence. The interstitials provide the explicit educational elements - compelling safety tips and information on how things work. The former will always try to go beyond the safety rule itself, and show the reasons for it or the effect of following it. The How things Work segments, along with the specific information they provide, are to help children notice, pay attention to, and think about relations of parts to wholes of objects in their world, to wonder about how things are made, and where they came from. In the first segment one of the interstitials explicitly reinforces the safety message that is implicit in The Three Fishermen. Life jackets must be worn in boats. The reason is clear. If we go overboard the lifejacket keeps us afloat. The first of How Things Work starts with something close to every young child's heart - the bicycle. It is well-known from children's drawings that they have no conception of how a bicycle works. For them, the important elements are pedals and wheels, with no understanding of how they are related. In this interstitial the children are shown and told about gears and chain. Through animation, close-up, audio reinforcing video, the workings can be highlighted, providing a light-hearted physics lesson. (Margie Golick, Ph.D.)</p>

Program Title	ECO COMPANY TEENS	
Origination	Network	
Days/Times Program Regularly Scheduled	Sundays at 9:00am & 9:30am (PT) on KAIL's Digital Sub-channel 7.3.	
Total times aired at regularly scheduled time	26	
Length of Program	30 mins	
Age of Target Child Audience from	13 years to 16 years	
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Eco Company Teens explores all aspects of being "green" and understanding how our actions impact the world. Viewers learn about alternative energies by visiting wind farms and solar installations and discovering new energy technologies currently under development. They learn more about recycling, conservation and organics. The E-Team profiles teens and school organizations who have taken it upon themselves to make a difference, young entrepreneurs who are taking their passion for green to develop ideas, and new products for a sustainable future.

Program Title	SAFARI	
Origination	Network	
Days/Times Program Regularly Scheduled	Sundays at 11:00am & 11:30am on KAIL's digital sub-channel, 7.3	
Total times aired at regularly scheduled time	26	

Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Safari provides core programming in the areas of global ecology, wildlife biology and species conservation and preservation. Emmy award-winning host and wildlife expert John Ross travels to the farthest reaches of the world to bring the viewers face to face with some of the planet's most interesting animals. Safari offers a dynamic television experience for teens - with the exciting experience of exploring the fascinating world of wildlife and at the same time discovering what needs to be done to protect the animals and their habitat so that they can live on in the wild. Various age-appropriate global wildlife and ecology issues are introduced to the viewing audience with in-depth and thoughtful explanations.

Program Title	Zoo Clues
Origination	Network
Days/Times Program Regularly Scheduled	Wednesdays at 8:00 am and 8:30 am on KAIL's digital sub-channel, 7.4
Total times aired at regularly scheduled time	26
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Zoo Clues is a 30 minute program specifically created for young people between the ages of 13 and 16. The program's presentation mix of narration, visuals, and very well chosen topics delivers education and information while it entertains. Zoo Clues will leave viewers with a meaningful perspective about animas and meaningful comparison to their own human characteristics. The show's clever narration links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world.

Program Title	Thomas Edison's Secret Lab
Origination	Network
Days/Times Program Regularly Scheduled	Fridays at 8:00 am and 8:30 am on KAIL's digital sub-channel, 7.4
Total times aired at regularly scheduled time	26
Length of Program	30 mins
Age of Target Child Audience from	8 years to 11 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Thomas Edison's Secret presents accurate, age appropriate scientific principles and concepts by portraying appealing young role models with whom young viewers can easily identify, in clever, comedic and wildly visual science based problem situations. It explores in the context of can do enthusiasm that characterized Thomas Edison's life and experiences. It invites young viewers to join in the adventure of science by making it interesting, challenging, and fun.
