| Programming               | State the average numb stream | State the average number of hours of Core Programming per week broadcast by the station on its main program stream                                       |                      | 3.5      |
|                           | -                             | State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream |                      |          |
|                           | -                             | per of hours per week of Core Programming broadcast by the station of See 47 C.F.R. Section 73.671:  | on other than its    | 7.5      |
|                           | Does the Licensee prov        | ide information identifying each Core Program aired on its station, inc  | luding an indication | Yes      |

Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?

of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?

# Digital Core Programs(19)

| Digital Core Program<br>(1 of 19)  | Response  |
|--|---|
| Program Title  | XPLORATION EARTH 2050   |
| Origination  | Syndicated  |
| Days/Times Program<br>Regularly Scheduled  | Saturday @ 7:00am   |
| Total times aired at<br>regularly scheduled<br>time  | 13  |
| Total times aired  | 13  |
| Number of<br>Preemptions   | 0   |
| Number of<br>Preemptions for other<br>than Breaking News   | 0   |
| Number of<br>Preemptions<br>Rescheduled  | 0   |
| Length of Program  | 30 mins   |
| Age of Target Child<br>Audience  | 13 years to 16 years  |
| Describe the<br>educational and<br>informational objective<br>of the program and<br>how it meets the<br>definition of Core<br>Programming. | This program strives to answer questions about where advancements in science, technology, engineering, and mathematics may lead us in the future. Scientists, inventors, doctors, science fiction writers, and creative thinkers add their input about what the world may look like in 2050. Viewers are taken on an educational adventure as the program tackles future challenges in everything from transportation to health care to the environment. This program aired on main digital stream. |
| Does the Licensee<br>identify the program<br>by displaying<br>throughout the<br>program the symbol E<br>/I?                                | Yes   |

| Age of Target Child<br>Audience                             | 13 years to 16 years   |

| Describe the<br>educational and<br>informational<br>objective of the<br>program and how it<br>meets the definition<br>of Core<br>Programming. | Each week, host Emily Calandrelli takes journeys through space that will both entertain and educate viewers. Ever wonder what it would be like to live in space or on a different planet? Emily shows viewers what it is like to try to perform everyday tasks while floating in zero gravity and living in a Mars-like habitat. Episodes feature space robotics, commercial space tourism, asteroids, the search for other life in space, and many other topics, including NASA-related programs as applicable to the episodes. This program aired on main digital stream. |

| Describe the<br>educational<br>and<br>informational<br>objective of the<br>program and<br>how it meets<br>the definition of<br>Core<br>Programming. | The key objective of this program is to familiarize children with the animals of the North American continent, their interaction with other animals, and their environment. Throughout the series, emphasis is placed upon protecting endangered species and the impact that humans have while interacting in their environment. The goal of this program is for the viewer to achieve a greater understanding of nature and specific animal species, with the aid of up-close and detailed photography throughout the program. Through this understanding, it is hoped that viewers will better relate to the natural environment in North America and learn to protect North America's animal species. This program aired on main digital stream. |

| Age of Target<br>Child Audience  | 13 years to 16 years  |
| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | Much of the food Americans eat is produced by farmers and ranchers in the country's heartland, but many children don't know how it's produced. "America's Heartland" provides information about the people and processes responsible for the availability of food and fuel across the country and around the world. The show's reporters and producers tell stories in topics that include farm families, consumer issues, animal welfare and crop sustainability. Children will learn about the production of the food and fuel they consume Some episodes also take the show abroad to countries such as Egypt and Taiwan, to show the impact American agriculture has on the global economy. This program aired on the station's secondary digital stream, channel 24.2. |
| Does the<br>Licensee<br>identify the<br>program by<br>displaying<br>throughout the<br>program the<br>symbol E/I?                                       | Yes   |

Describe the educational and informational objective of the program and how it meets the definition of Core Programming. This program explores the origin of hundreds of the worlds most influential and important inventions, natural objects, customs, ideas from technology, arts and entertainment, government, nature and more. By teaching the history of the world's most significant ideas and creations, Origins gives children an appreciation of progress and the contributions of others while inspiring their own dreams of the future. Episode examples include: "The Horse, Bicycle and Motorcycle", three modes of solitary transportation that gave us freedom and adventure; and, "Clocks, Calendars & Calculators", three pivotal inventions that enable humankind to organize, plan and keep track of their lives. This program airs on the station's secondary digital stream, channel 24.3.

| Describe the<br>educational and<br>informational<br>objective of the<br>program and<br>how it meets<br>the definition of<br>Core<br>Programming. | Think Big is a kid-hosted entertaining series for young people that follows the world's most innovative kids as they create and invent new toys, games, learning tools, websites, and modes of transportation. The program features top kid inventors who face off against one another in an Invent-Off to see who can come up with the most innovative and creative invention. In each episode, two teams brainstorm, choose materials, and sketch and design their idea. Once completed, the inventions are then judged. This program allows kids to showcase their skills in creativity, science, innovation, marketing and teamwork. This program airs on the station's secondary digital stream, channel 24.3. |
