Digital Core  
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.89
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	336.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	6.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Digital Core Program (6 of 24)	Response
Program Title	AQUA KIDS (main digital channel 46.1)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturday, 8:30-9:00AM (7/1-9/23/17)
Total times aired at regularly scheduled time	13
Total times aired	13
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	AQUA KIDS, which aired on WUPW's main digital channel throughout the 3rd quarter 2017, is a half-hour weekly series that provides core programming in the area of biology and specifically, the ecosystem related to the ocean, its tributaries and estuaries. Children can learn about the resources of the oceans and how protection of the oceans is necessary to present and future generations. Not only does the show teach biological topics, but it aims to enrich children's lives by making them aware of future generations, the role they play now, and for generations into the future, with the biggest ecosystem on earth - the oceans. Each episode provides information related to a specific topic and gives an educational approach to understand the topic as it relates to the entire ecosystem of the earth. AQUA KIDS uses the technique of near-peer mentors i.e., children to teach other children. Each episode employs these mentors (called Aqua Kids) who ask questions and experience first-hand the topic. For example, children might feed manatees to experience the graceful, gentle nature of the animal and learn about their biology or dig through piles of silt dredged from the ocean depths to look for shark teeth to understand how sharks continually grow new teeth and lose old rows of teeth. NOTE: AQUA KIDS had its last telecast on WUPW on 9/23/17. Beginning 9/30/17, E/I series THINK BIG moved to air in the Saturday, 8:30-9AM time period.

Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The THINK BIG series serves the educational and informational needs of children 13-16 years of age with its program content and includes as a significant purpose the importance of having a working knowledge of math, science and physics. The series shows children actively solving problems using scientific principles, combining skill and creativity. The series also demonstrates real-world applications for math, science and engineering, proving that the physical sciences can be useful, challenging and fun. Each episode presents an "invent-off" challenge where teenage teams must invent a machine designed to perform a specific task in limited amount of time, promoting creative thinking and practical skills. THINK BIG aired on WUPW's main digital channel in the aforementioned time period in the 3rd quarter 2017.
