| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | Aqua Kids provides a unique vehicle for young people to learn about the diversity of marine animals around the world, emphasizing the importance of preserving fragile aquatic habitats and encouraging children to take an active role in protecting the future of their community and the world. The program provides a window into the management and preservation of unique habitats and species through the eyes of kids and their hands-on collaboration with science researchers and educators. The messages delivered by Aqua Kids are given by a creative and resourceful host, Molly McKinney, whose scientific background is evident in the show. The other young hosts, whose ages range from pre-teen to late teens, are equally entertaining and informative. The young viewers identify with these young hosts and imagine themselves in the role of the scientist and as someone who could have a positive impact on the environment. The format of young student scientists presenting information on location in a variety of aquatic settings is both entertaining and informative. |

| Describe the<br>educational and<br>informational<br>objective of the<br>program and how<br>it meets the<br>definition of Core<br>Programming. | VEGGIE TALES is a show that draws upon characters from stories, which use both long and short-form materials to provide social-emotional messages to children. Narrated by animated veggies, Bob the Tomato and Larry the Cucumber, the show teaches life lessons through wit and humor. Each episode contains one or two short animated stories that illustrate core values to children in an entertaining way. Stories are interrupted with silly songs, usually sung by Larry the Cucumber, that contain whacky lyrics in a catchy tune. Each episode ends with Bob and Larry reinforcing the lesson learned through the stories. |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | Steal the Show provides CORE programming in the areas of music, music composition, the music recording process and musical instruments. Ariel, Zoey and Eli Engelbert of the El program Ariel, Zoey & Eli, Too work to write and record an album with Grammy Winner Jim Peterik. All aspects of the process are covered - 1) Creating the Melody 2) Writing the lyric 3) Creating harmonies 4) Developing instrumentals and 5) Recording the song in the studio. With schools across the country cutting funding to music related programs, Steal the Show fills an important void. Students will be empowered with the knowledge and skills they will broaden and hone as they follow Ariel, Zoey and Eli on their journey with one of the most prominent songwriters of the past 20 years. |

| Describe the<br>educational<br>and<br>informational<br>objective of<br>the program<br>and how it<br>meets the<br>definition of<br>Core<br>Programming. | Give is a live action, half-hour television program designed to meet the educational and informational need of children aged 13-16. Give introduces viewers to the world of philanthropy through the stories of small charities making a big impact. The series features Jenna Bush Hager, actor Blair Underwood, and other passionate celebrity philanthropists from film and television, music, sports, or business who are all on a mission to inspire others to do good. In each episode of Give, one of these celebrity ambassadors will vist two charities that are dedicated to inspiring change in their communities. We'll discover what makes these charities effective, learn what each needs to make an even bigger impact, and surprise them with a gift to help continue their good work. Audiences will meet the inspiring individuals and volunteers behind each organization to see how they do their part to make the world a better place, learning compassion and the value of giving back along the way. |
