**Digital Core  
Programming**

| Question  | Response |
|---|----------|
| State the average number of hours of Core Programming per week broadcast by the station on its main program stream  | 3.0      |
| State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream  | 336.0    |
| State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:  | 6.0      |
| Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?  | Yes      |
| Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams? | Yes      |

| Age of Target Child Audience   | 13 years to 16 years   |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The half-hour weekly series, Sea Rescue, features the rescue, rehabilitation and - in many instances - release back into the wild of ocean wildlife. Produced for ages 13-16, Sea Rescue offers educational and entertaining television by demonstrating the welfare and medical benefits that rescue and rehabilitation programs provide animals. Viewers will also learn that there's reciprocal benefit: rescued animals provide valuable insight into their biology and ecology. This information adds to the pool of knowledge necessary to conserve threatened and endangered species. "Sea Rescue" is broadcast on the stations primary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | "Rock the Park" is a weekly half-hour series produced and designed to educate and inform children 13-16 years of age and taps into America's love affair with our national parks. In this awe-inspiring and entertaining series our hosts, Jack Steward and Colton Smith, come face to face with nature and some of the most amazing places on earth. Viewers will witness the fascinating underwater world of Dry Tortugas National Park in Florida, which is home to the world's most unique coral and marine life. They'll watch as Jack and Colton raft their way through Alaska's remote Aniakchak National Monument and Preserve, spotting the region's famous brown bears. Viewers will reach new heights as Jack and Colton embark on their biggest climbing challenge yet - The Grand Teton in Wyoming's Grand Teton National Park. "Rock the Park" is broadcast on the stations primary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The half-hour weekly series, Ocean Mysteries, offers a fresh approach to the quest for aquatic understanding by blending stories of fascinating sea creatures, comparisons to popular land animals, and analogies to human experience. Hosted by Jeff Corwin, Ocean Mysteries is produced for ages 13-16 - and beyond - by showing how animals share the same behaviors, challenges and triumphs that humans do. From exciting rescues of abandoned animals to unexpected conflicts in the "family dynamics" of the mingling species, viewers will get to know - and care - about these heroes, and all of the fascinating life teeming in our oceans. "Ocean Mysteries" is broadcast on the stations secondary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | A weekly half-hour series that explores the fascinating components of the human brain and how they shape our perceptions and everyday lives. Produced for children aged 13-16, Brain Games: Family Edition's host Jason Silva opens each episode with an exercise for your mind which will often leave you scratching your head. These exercises will serve as a jumping-off point for a deep dive into the reality of human perception and the fascinating ways that our brain functions. Each week, Host Jason Silva will explore a variety of different topics including visual perception, memory, skill learning, decision making, and many more. Brain Games: Family Edition educates and inspires viewers by presenting a series of experiments and activities designed to help people improve cognitive function and use their brains better, smarter and faster. "Brain Games: Family Edition" is broadcast on the stations secondary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | In this weekly half-hour competition-style series developed and produced to educate and inform viewers ages 13-16, it is chef against chef in a recipe makeover challenge. Viewers will submit their favorite, decadent, high-calorie, classic family recipes and two acclaimed chefs will face off in head-to-head competition to give the recipes a low-calorie twist. The audience will learn the value of healthy, wholesome ingredients and how healthy food choices can have positive effects on our quality of life. Special guests will serve as judge and jury. "Recipe Rehab" is broadcast on the stations secondary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | An educational and informational series dedicated to teaching children aged 13-16 about how to successfully pursue their entrepreneurial dreams. Each week, a seasoned team of business leaders instructs entrepreneurs about the basic but critical business skills needed to bring a product from concept to the marketplace. A unique program that combines entertainment with business school, Hatched will focus on the skills needed to launch a product. It will help young people develop the confidence and business savvy to execute a detailed business plan that includes product pricing, packaging, marketing and investment strategies. Hatched brings young entrepreneurs to the table encouraging them to step up and seize their dreams. "Hatched" is broadcast on the stations secondary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space, robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. Xploration Outer Space is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interested in the field of STEM education. "Xploration Outer Space" is broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | What will the world look like in 2050? Where will advancements in science, technology, engineering, and mathematics lead us? Xploration Earth 2050 strives to answer these questions and more with scientists, inventors, doctors, science fiction writers, and creative thinkers. Viewers will be taken on an educational adventure as the show tackles future challenges in everything from transportation to health care to the environment. Xploration Earth 2050 is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. Produced primarily for the 13-16 target audience. "Xploration Earth" is broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13-16 target audience. Xploration DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training - Steve Spangler - encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science. For instance, Steve Spangler became nationally-known with a video showing him dropping the candy "Mentos" into a bottle of diet soda. It erupts in a geyser of soda. On Xploration DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts the way to the candy. Xploration DIY Sci is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home. "Xploration DIY Sci" is broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13-16 target audience, Xploration Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the "Weird But True" science at play all around us. With a mix of graphics and handmade art, this E/I series is fun, playful and educational. For instance, in the first episode, our hosts are curious to learn about asteroids - and so they set off to explore the biggest meteor crater in the US and meet a real-life meteorite hunter. They also try their hand at tracking down space rocks. Along the way, they discover that meteor crash sites can turn into quicksand! On Xploration Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. Xploration Weird But True is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them. "Xploration Weird But True" is broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13-16 target audience, Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist, Danni Washington, exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers aren't the only scientists looking toward nature. We will also meet the biologists studying the behavior patterns of ants: architects who design "Living Buildings"; and roboticists who are making their designs bigger, stronger and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery! Xploration Nature Knows Best is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. "Xploration Nature Knows Best" is broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | "Xploration Awesome Planet" will inspire and educate anyone interested in the earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on earth, inside earth, and above earth. Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. Produced primarily for the 13-16 target audience. "Xploration Awesome Planet" is broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The half-hour weekly series, Ocean Mysteries I, offers a fresh approach to the quest for aquatic understanding by blending stories of fascinating sea creatures, comparisons to popular land animals, and analogies to human experience. Hosted by Jeff Corwin, Ocean Mysteries is produced for ages 13-16 - and beyond - by showing how animals share the same behaviors, challenges and triumphs that humans do. From exciting rescues of abandoned animals to unexpected conflicts in the "family dynamics" of the mingling species, viewers will get to know - and care - about these heroes, and all of the fascinating life teeming in our oceans. "Ocean Mysteries I" is broadcast on the stations secondary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | The half-hour weekly series, Sea Rescue, features the rescue, rehabilitation and - in many instances - release back into the wild of ocean life. Produced for ages 13-16, Sea Rescue offers educational and entertaining television by demonstrating the welfare and medical benefits that rescue and rehabilitation programs provide animals. Viewers will also learn that there's a reciprocal benefit: rescued animals provide valuable insight into their biology and ecology. This information adds to the pool of knowledge necessary to conserve threatened and endangered species. Each week, Sea Rescue will leave its audience inspired by the real-life stories of the featured animals and rescuers and with a fuller understanding of the rich array of sea life with which we share our planet. To be broadcast on the stations primary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Emmy-winning Jack Hanna's Into the Wild takes viewers on excursions around the world through the eyes of America's most beloved animal adventurer and his family. More than just a collection of animal escapades, Into the Wild provides insight into the protection and conservation of some of our planet's most precious and endangered species. Into the Wild is unscripted and action packed - it takes you on a raucous ride, leaving you with a renewed appreciation for all creatures, great and small. To be broadcast on the stations secondary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | An educational and informational series dedicated to teaching children aged 13-16 about how to successfully pursue their entrepreneurial dreams. Each week, a seasoned team of business leaders instructs entrepreneurs about the basic but critical business skills needed to bring a product from concept to the marketplace. A unique program that combines entertainment with business school, Hatched will focus on the skills needed to launch a product. It will help young people develop the confidence and business savvy to execute a detailed business plan that includes product pricing, packaging, marketing and investment strategies. Hatched brings young entrepreneurs to the table encouraging them to step up and seize their dreams. To be broadcast on the stations secondary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space, robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. Xploration Outer Space is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interested in the field of STEM education. To be broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | "Xploration Awesome Planet" will inspire and educate anyone interested in the earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on earth, inside earth, and above earth. Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. Produced primarily for the 13-16 target audience. To be broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13-16 target audience. Xploration DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training - Steve Spangler - encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science. For instance, Steve Spangler became nationally-known with a video showing him dropping the candy "Mentos" into a bottle of diet soda. It erupts in a geyser of soda. On Xploration DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts the way to the candy. Xploration DIY Sci is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home. To be broadcast on the stations tertiary digital channel only. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13-16 target audience, Xploration Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the "Weird But True" science at play all around us. With a mix of graphics and handmade art, this E/I series is fun, playful and educational. For instance, in the first episode, our hosts are curious to learn about asteroids - and so they set off to explore the biggest meteor crater in the US and meet a real-life meteorite hunter. They also try their hand at tracking down space rocks. Along the way, they discover that meteor crash sites can turn into quicksand! On Xploration Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. Xploration Weird But True is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them. To be broadcast on the stations tertiary digital channel only. |

| Age of Target Child Audience from  | 13 years to 16 years   |
| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13-16 target audience, Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist, Danni Washington, exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers aren't the only scientists looking toward nature. We will also meet the biologists studying the behavior patterns of ants: architects who design "Living Buildings"; and roboticists who are making their designs bigger, stronger and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery! Xploration Nature Knows Best is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. To be broadcast on the stations tertiary digital channel only. |
