Program Title	Animal Atlas
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturday, 10a until 9/3
Total times aired at regularly scheduled time	10
Total times aired	10
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>(19.1) Animal Atlas is an entertaining and educational half-hour wildlife program shot exclusively in High Definition. The show introduces young viewers to every kind of animal imaginable, from the familiar to the astounding, including apes and giant lizards, sharks and tigers, and all other animals from the Americas, Africa, Asia, Australia, and everywhere in between. Animal Atlas promotes a better understanding of how various animal species live and what they need to survive. Each episode stands alone as an entertaining look into the world of animals - whether visiting a particular group of animals, such as big cats, or meeting the animals of an entire continent. Through Animal Atlas, viewers discover the variety of places that animals live, how they find food, and how they play. The show also looks at how family units operate, from a community of thousands of prairie dogs, to a pride of lions, to a school of fish. Certain episodes also explore animal features such as diet, locomotion, adaptation and how animals take care of their young. Along the way, Animal Atlas educates young viewers about endangered species and provides information on how to support wildlife conservation. For a population of young viewers attuned to the importance of going "green", Animal Atlas is not only entertaining, it is culturally relevant and important. Animal Atlas offers an incredible and wildly entertaining adventure through the animal world. Learning about animals has never been more fun! Just spin the globe. Anywhere, everywhere animals live, you'll find Animal Atlas.</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) The Coolest Places on Earth is an educational and informative half-hour, E/I program that takes young viewers on a journey of discovery to the most astonishing places on the planet - cities, festivals, landmarks and jaw-dropping works of nature - exploring each location's history and culture. Each episode showcases three specific locations and delivers fast-paced, engaging information that's a perfect match for the 21st century learner. (19.1) The series is packed with facts about history, geography, and culture. The goal of the series is to provide young viewers with the inspiration and information to better understand and appreciate the culturally and geographically diverse world around them.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) This new half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown.

Total times aired	10
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) The series Zoo Clues will keep 13-16 year-old viewers engaged for 30 minutes with the nearly infinite visual richness, animal characteristics, and wild range of animal behaviors. Beyond its target audience, both older and younger audiences should find this look across the amazing world of animals fascinating. Beyond basic engagement, Zoo Clues will leave viewers with a meaningful perspective about animals and meaningful comparisons to their own human characteristics. The variety of the animal kingdom is truly odd and bizarre enough to read like fiction, but the clever narration of Zoo Clues links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world. Grouping animal behaviors and physical characteristics into groups from a human point of view holds the series thematically together. Animal Senses explains how animals use their extraordinary senses in ways that we can't. Animal Olympics creates an animal "Olympics" where animals are put together in an athletic competition based upon their statistics. It is always kept in perspective by putting the feats in human terms, such as when the leaping ability of a flea is compared to a human high jump of hundreds of feet.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.3) Wild About Animals is a reality science series that is produced for children in the 13-16 age group, and is designed to educate, inform and entertain those viewers. This program fulfills its purpose by providing a high level of educational value. The structure of each show consists of four (4) different segments/stories which make for a varied, fast paced program. Through the use of dramatic, stunning footage combined with an engaging and entertaining narrative, the show creates a general tone that is particularly effective in connecting to the target audience. The level of detail in each show is also appropriate and the segments move quickly from one topic to the next.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.3) Awesome Adventures is an educational and informational adventure travel program that targets the 13 to 16 year old age group, but is also a highly entertaining program for a more general audience. With a host and the use of young guides from a specific locale, it is ideal for the "tween/teen" market. This program is fast paced, and provides information which encompasses many aspects of the location. It is produced in a contemporary style, and features both historical and cultural information, in addition to an action adventure. The introduction about the specific food, music, geography, history and environmental issues as well as popular recreational activities of the locale, make for a most entertaining program.

Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.3) WHADDYADO, a half-hour weekly series designed to educate, inform, inspire and entertain, does an exceptional job educating teenagers. The show's target audience is between 13 and 16 years of age, the time period when children are making the transition to becoming adults. Both theory and research demonstrate that this is the stage of life where children begin to experiment with who they are who they want to be. It's a time which is typified by feeling invincible. This sense of invulnerability is commonly coupled with withdraw from parents and authority figures which leaves teenagers susceptible to poor decision making. Therefore, this time where insight and judgment are developing, but adult influence is limited, educational programming can make an immense impact on a child's decisions. WHADDYADO provides an excellent opportunity for teenagers to learn life lessons they likely are otherwise not open to receiving.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) Produced primarily for the 13 to 16 target audience, Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist, Danni Washington, exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants, architects who design living buildings and roboticists who are making their designs bigger, stronger, and faster based on animals, This series will help kids understand how getting outside and taking a look around can help them make the next great discovery.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.2) "The Brady Barr Experience" is a weekly half-hour series that is designed to inform and educate viewers 13 to 16 years of age. In this action-packed series viewers will go behind the scenes with D. Brady Barr for a captivating ride through the world of wildlife and animal conservation. As a seasoned herpetologist, Dr. Brady Barr has traveled to five continents, worked with hundreds of scientists and has gotten up close and personal with some of the most misunderstood animals on the planet. Brady Barr has made it his life's work to study and protect some of the world's most dangerous and endangered land animals and in this series, he will share his knowledge and passion for the earth's wildlife with the audience.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.2) "Culture Click" is a weekly half-hour series that explores the genesis of and reasons behind cultural events that permeate our everyday lives. Developed and produced for viewers aged 13-16, host Nzinga Blake opens each episode from her virtual reality set with a list of what's trending on search engines that week. These topics will serve as a jumping-off point for a deep dive into the culture viewers 13 to 16 will embrace. Each week Nzinga will analyze and answer the questions that shape our society using the power and speed of the internet and user-generated questions and content. Experts in pop culture will join her to add insight and historical perspective. And most importantly, viewers will come away with a week's work of "aha" moments to share with their friends and family. Six degrees of separation takes on a whole new meaning, and there's no limit to what viewers will learn when they experience "Culture Click"

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.2) Young, enthusiastic and passionate about food, Claire Thomas is the 22 year old host who opens viewers' eyes to how everyday life can inspire culinary creations in Food for Thought. Each weekly half hour, produced for kids ages 13 to 16, informs and educates teens about the power of food as a tool for exploring new places, meeting new people and learning about different cultures. Claire serves as a role model 12 to 16 year old viewers by showing her passion for her family, life, and healthy living by sharing stories in the kitchen. Creative inspiration can come from any place at any time, sometimes from family, sometimes from friends, or even bloggers needing her help. No matter how exotic or local the location, she's always in search of new tastes and places to explore. Based on her unique perspective gathered throughout each episode, Claire will teach the audience how to prepare the "inspired" dish while promoting a healthy attitude towards food life.

Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturday, 9-9:30a
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) Produced primarily for the 13 to 16 target audience, Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist, Danni Washington, exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, in helicopters influenced by the dragonfly and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel. But engineers aren't the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants, architects who design "Living Buildings" and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery! Xploration Nature Knows Best is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education.

Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) Produced primarily for the 13 to 16 target audience, Xploration DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training, Steve Spangler, encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science. For instance, Steve Spangler, became nationally known with a video showing him dropping the candy "Mentos" into a bottle of diet soda. It erupts in a geyser of soda. On Xploration DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts that way to the candy. Xploration DIY Sci is a half hour weekly E/I series produced with the intention of increasing and expanding our target audience's interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	(19.1) Produced primarily for the 13 to 16 target audience, Xploration Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with the National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the "Weird But True" science at play all around us. With a mix of graphics and a handmade art, this E/I series is fun, playful and educational. For instance, in the first episode, our hosts are curious to learn about asteroids and so they set off to explore the biggest meteor crater in the US and meet a real-life meteorite hunter. They also try their hand at tracking down space rocks. Along the way they discover that meteor crash sites can turn into quicksand! On Xploration Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. Xploration Weird But True is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them.
