#### Broadcaster Information and Transition Plan

| Question   | Response  |
|--|---|
| Will the station be sharing equipment with another broadcast television station or stations (e.g., a shared antenna, co-location on a tower, use of the same transmitter room, multiple transmitters feeding a combiner, etc.)? If yes, enter the facility ID's of the other stations and click 'prefill' to download those stations' licensing information. | Yes   |
| Briefly describe transition plan   | The facility will be replacing the existing main transmitter, antenna, and transmission line and building an interim tower for the new interim transmitter, antenna, and transmission line. |

#### **Transmitters**

| Section                      | Question                                  | Response |
|------------------------------|---|----------|
| Transmitter Related Expenses | Do you have transmitter related expenses? | Yes      |

## Primary Transmitter

## **Existing Transmitter Information**

| Section                          | Question   | Response                 |
|----------------------------------|--|--------------------------|
| Existing Transmitter Description | Type of change   | Purchase<br>New          |
|                                  | Use  | Primary<br>(Main)        |
|                                  | Description of Use   | N/A                      |
|                                  | Ownership  | Owned                    |
|                                  | Owner  | N/A                      |
|                                  | Site   | N/A                      |
|                                  | Is this transmitter currently shared with another station? | No                       |
|                                  | Is this transmitter currently in operating condition?      | Yes                      |
| Existing Transmitter             | Manufacturer   |                          |
| Manufacturer and Type            | Model  | CD3100P1                 |
|                                  | Year   | 2001                     |

|                                  | Power Capacity   | 30 kW                    |

## Primary Transmitter

#### **New Transmitter Costs**

| Section         | Question                                  | Response                       |
|-----------------|---|--------------------------------|
| New Transmitter | Use                                       | Primary<br>(Main)              |
|                 | Change Type                               | Purchase<br>New                |
|                 | Is this a request for upgraded equipment? | Yes                            |
|                 | Manufacturer                              |                                |
|                 | Model                                     | ULXTE-50                       |
|                 | Transmitter Type                          | Solid State                    |
|                 | Solid State Cooling                       | Liquid<br>Cooled               |
|                 | Solid State Power capacity                | 31.7 kW                        |
|                 | Justification for New Transmitter         | Transmitter cannot be retuned. |

#### Primary Transmitter

#### **Other Transmitter Costs**

| Section            | Question                              | Response |
|--------------------|---------------------------------------|----------|
| Electrical Service | Service Entrance (3 phases 800A 208V) | No       |
|                    | Switchgear (industrial 800 amp)       | No       |
|                    | Transformer (480V)                    | No       |
|                    | Power                                 | N/A      |
|                    | Rigid Conduit and Wiring              | No       |
|                    | Size                                  | N/A      |
|                    | Length                                | N/A      |
|                    | Other Electrical Service              | Yes      |
|                    |                                       |          |

|   | Description  | The new transmitter will require reconfiguration of the electrical service on site. The electrical work cost has been estimated based on verbal guidance from local electrical contractors. |
|---|--|---|
| HVAC Service  | Does the replacement transmitter require HVAC Service?                                       | No  |
|   | Туре   | N/A   |
|   | Size   | N/A   |
|   | Other Size   | N/A   |
| Transmitter Building Addition/Modification or Leasehold | Does the Transmitter Building require an addition, modification, other leashold improvement? | No  |
| Improvement   | Size   | N/A   |
| Channel 14 Costs  | Is an RF Consulting Engineer needed?   | N/A   |
|   | Is a channel 14 Mask Filer needed?   | N/A   |
|   | Is additional field engineering time needed?   | N/A   |
|   | Number of Days   | N/A   |

#### Primary Transmitter

#### **Other Transmitter Cost Not Listed**

| Name                      | Description                                  |
|---------------------------|--|
| Transmitter building work | Necessary building work for new mask filter. |
| Remote Control System     | Remote control system for new transmitter.   |

|  | cation of existing generator system to tate reconfiguration of transmitter ing. |
|--|---|
|--|---|

#### Interim Transmitter

#### **New Transmitter Costs**

| Section         | Question                          | Response   |
|-----------------|-----------------------------------|--|
| New Transmitter | Use                               | Interim  |
|                 | Description of Use                | N/A  |
|                 | Change Type                       | Purchase   |
|                 | Manufacturer                      |  |
|                 | Model                             | ULXTE-60   |
|                 | Transmitter Type                  | Solid State  |
|                 | Solid State Cooling               | Liquid<br>Cooled   |
|                 | Solid State Power capacity        | 38 kW  |
|                 | Justification for New Transmitter | Interim transmitter needed to continue broadcasting through transition period. |

#### Interim Transmitter

#### **Other Transmitter Costs**

| Section            | Question                              | Response |
