Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. This program meets the definition of Core Programming because: (1) it serves the educational and informational needs of children ages 16 and under; (2) it airs at 10:00am; (3) it is regularly scheduled on Saturdays; (4) it is 30 minutes in length; (5) the educational/informational objective and target child audience for this program are specified on air and to program guide publishers.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Xploration Outer Space is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This new half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. This program meets the definition of Core Programming because: (1) it serves the educational and informational needs of children ages 16 and under; (2) it airs at 10:30am; (3) it is regularly scheduled on Saturdays; (4) it is 30 minutes in length; (5) the educational/informational objective and target child audience for this program are specified on air and to program guide publishers.
