Age of Target Child Audience	13 years to 16 years	
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Zoo Clues is a 30 minute program specifically created for young people between the ages of 13 and 16. The program's presentation mix of narration, visuals, and very well chosen topics delivers education and information while it entertains. Zoo Clues will leave viewers with a meaningful perspective about animas and meaningful comparison to their own human characteristics. The show's clever narration links disparate information together in a way that always makes clear that what viewers see is real, natural, and relates to their own life in the real world.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Mickey, a curious and adventurous Shetland Sheepdog, is a city dog who has just moved to a farm with his best friend, 14 year old Megan. Each episode follows Mickey as he experiences new things on the farm. Often Mickey gets confused or into a bind, but with the help of Megan, his friends Guy, a wise goat, and Fiona, an energetic ferret, and their Magic Book, a solution is always found and Mickey learns something new. The show is narrated by Sunny, the sun, who is always watching over the activities on the farm. Episodes end with an original song, which reiterates new things learned. The show is intended to motivate children to explore new things, ask questions, problem solve and make new friends.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Doki offers fun characters each with their own strengths and weaknesses (therefore offering a broad representation of possible at-home-viewers). The team is supportive of one another and the "world" of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer (i.e., encouraging the viewer to assist on -screen characters to solve problems), and this series might benefit from this type of "interaction," Doki does offer enthusiastic characters, real questions, and an "arguably" realist presentation of discovery. Combined, these elements will keep children engaged and support their learning.

Length of Program	30 mins
Age of Target Child Audience	10 years to 12 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The primary educational goal of the series is to present world geography information in a manner that is appealing to and comprehensible by children between the ages of 10 to 12 years old. Each episode is designed to take the action to at least two places on our planet and provide the viewers with some information about each place. Additionally, each episode has a secondary topic designed to fit with the narrative, the focus of which may be culture, history, art, music, science, technology, or the like. The program provides the right balance of entertainment and information, and the information emerges as a natural part of the progression of the story rather than as a series of interruptions.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Dive Olly Dive offers a collection of boy and girl characters each with their own unique characteristics and strengths. Skid, although something of a bully, comes around in each episode and is never cruel. The team is supportive of one another and lessons of predicting, considering and discovering are cleverly interwoven into an entertaining storyline. Although the series is standard in terms of story telling, that is, it does not incorporate some of the elements that we know extend a series' power in terms of teaching, Dive Olly Dive offers relatable characters and episodes that are clearly created with the intention of supporting a child's learning. In particular this series supports a child's social development and problem solving skills.

Length of Program	30 mins
Age of Target Child Audience	6 years to 9 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Giver is a live action series suitable for children 6 to 9. In each episode the young adult host enlists the help of children in the area to work together to improve playgrounds in their community. Together, the children select a theme for the new playground and make decisions on how to make their park great. The lesson of this series support a child's social and emotional development and encourages volunteerism and teamwork.

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Each episode of On the Spot is a lightning fast game of entertaining trivia from different categories, including: untold history, globetrotting, origins, supernatural, in sickness and in health, myths, now and then, record setters, mad science and bad ideas. Well-researched facts on high interest topics delivered with bright, fast, visuals will feed the interests of a broad audience group, but the approach does particularly well for the 13-16 year-old target audience.
