Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Sports Stars of Tomorrow is a United States nationally-syndicated sports television show about high school and college athletics. The show provides in-depth feature stories about the top prep athletes in the United States. The goal of the program is to get an "off the field" look at the athletes, so they are frequently shown doing things like playing golf, strumming guitars, and studying. The program is regularly scheduled and airs between the hours of 7:00am and 10:00pm. The program is 30 minutes in length, and is identified as an educational and informational show, targeted to 13-16 year olds, at the beginning and through each broadcast, and in listings provided to publishers of program guides.

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Xploration: Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist Danni Washington relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel! The program is regularly scheduled and airs between the hours of 7:00am and 10:00pm. The program is 30 minutes in length, and is identified as an educational and informational show, targeted to 13-16 year olds, at the beginning and through each broadcast, and in listings provided to publishers of program guides.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Xploration Outer Space will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. The program is regularly scheduled and airs between the hours of 7:00am and 10:00pm. The program is 30 minutes in length, and is identified as an educational and informational show, targeted to 13-16 year olds, at the beginning and through each broadcast, and in listings provided to publishers of program guides.

Program Title	Xploration Outer Space (on D2)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sat 10a
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Xploration Outer Space will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes of space robotics, commercial space tourism, asteroids, and our search for life, among many others. The program is regularly scheduled and airs between the hours of 7:00am and 10:00pm. The program is 30 minutes in length, and is identified as an educational and informational show, targeted to 13-16 year olds, at the beginning and through each broadcast, and in listings provided to publishers of program guides.
