Digital Core Program (1 of 12)	Response
Program Title	The Champion Within
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays 12:30-1pm, main digital
Total times aired at regularly scheduled time	6
Total times aired	13
Number of Preemptions	7
Number of Preemptions for other than Breaking News	7
Number of Preemptions Rescheduled	7
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>The Champion Within is a live action, 30 minute television program designed to meet the educational and informational needs of children aged 13 to16. The Champion Within features the powerful and inspiring stories that exemplify what it really means to be a true champion. Hosted by Lauren Thompson, the series introduces viewers to people who have overcome obstacles while leading transcendent moments from the world of sports. From beating the odds to play the game they love, to giving back to the communities that supported them, the featured athletes will share their own stories and personal triumphs. Viewers will learn the value of good sportsmanship, and the dedication it takes to excel at the highest level. Win or lose, The Champion Within proves that a champion is not only defined by their speed, strength, and agility, but by their grit, resiliency, and heart. Messages shared this quarter include believing you can achieve something is the first step to reaching your goal. Viewers learn about spinal cord injuries and how people living with them rehabilitate, the history of the Special Olympics, and how to train to be an Olympic sprinter; the impact made by helping those less fortunate can be greater than that of winning. Viewers learn about the importance of helping others, educational programs that teach about engineering and industrial design, steps to take to become a professional golfer, and how to become involved with training horses; Just because someone does not fit the mold does not mean they cannot achieve success. Viewers learn about the history of the mens golf team at Tennessee State University, how to train to become a distance and track runner, what mitochondrial disease is, and how to balance school while also working toward your dream; surrounding yourself with people who believe in you will encourage you to do the same. Viewers learn about the history of the womens triathlon, steps a junior golfer can take to become a professional, the different jobs in a pit crew, and the role a caddy plays in the game of golf; and do not let an obstacle get in your way of achieving your goals. Viewers learn about sporting events in the Paralympics, steps someone with a disability can take to become a Paralympian, and how Paralympians competing in the biathlon train. Viewers also learn about the history of the NHL, how hockey players train, and the history of mixed martial arts. NBCs expanded footprint of live sporting events on Saturdays impacted 7 weeks of schedules as the program was shifted to its secondary time periods.</p>

Digital Core Program (2 of 12)	Response
Program Title	Wilderness Vet
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays, 10:30-11am (main digital)
Total times aired at regularly scheduled time	10
Total times aired	13
Number of Preemptions	3
Number of Preemptions for other than Breaking News	3
Number of Preemptions Rescheduled	3
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wilderness Vet hosted by renowned veterinarian, Dr. Michelle Oakley, features compelling stories from one of the most rugged areas on the planet, the Yukon. Dr. Oakley travels to homes and farms as she administers to wildlife in need . Life lessons imparted this quarter include bonding with family and spending quality time together is important in life. When we have each other, we have everything we need; we are presented with new challenges every day and we must not let ourselves be defeated. We must always stay focused on our goals and push ourselves to overcome the obstacles; It is important that we always treat animals with compassion and respect. All life is important, no matter its age or size; We are constantly faced with new circumstances and challenges in life. We must learn to do our best to adapt and improvise and life is a gift and we must treat all animals with respect and dignity. We should all do our best to leave the Earth a better place than we found it. Due to sporting events and the Royal Wedding the program was preempting from its regular time period three times, moved to secondary childrens time periods.

Digital Core Program (3 of 12)	Response
Program Title	Journey with Dylan Dreyer
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays, 11-11:30am Main Digital
Total times aired at regularly scheduled time	11

Total times aired	13
Number of Preemptions	2
Number of Preemptions for other than Breaking News	2
Number of Preemptions Rescheduled	2
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Journey with Dylan Dreyer, led by NBC News meteorologist and Today Show Contributor, Journey with Dylan Dreyer, is a wondrous celebration of nature. Breathtaking cinematography will bring the targeted young teen viewers ages 13 to 16 up close and personal with the black bears of Montana to polar bears in the Arctic. The audience will have a unique platform to see animals in their natural habitat, including exploring the extraordinary migration of 1 and a half million animals traveling over 500 miles across the Serengeti in Tanzania and Kenya. Journey with Dylan Dreyer will explain many questions surrounding the behaviors of animals, big and small and the world in which we live. Travels and educational messages this quarter include the Kaziranga National Park located in the shadows of the Himalayan Mountains is designated as a World Heritage Site by the United Nations, which means the area is recognized as being of profound natural or cultural importance to all humanity. The amazing plants and animals living in this area deserve our respect and protection; Our society can have a big impact on the nature and wildlife that surrounds us. We must protect and treat our own environment with respect and hard work to ensure it thrives for generations to come; on a trip to northern Spain we learn t;he world we recognize today is billions of years in the making. Vibrant cultures today have rich histories to discover; the importance of Louisiana to the United States cannot be overstated. Its history, ecology, and industry helped power our new nation, and remains as vital today as it has ever been and The waters of the Pacific Ocean touch every creature in every ocean, and sustain life on land. We must do our part to keep our oceans clean and free of pollution, plastics, and waste. Due to sporting events Journey was preempted twice during this quarter and rescheduled in secondary times

Digital Core Program (4 of 12)	Response
Program Title	Naturally, Danny Seo
Origination	Network
Days/Times Program Regularly Scheduled	Saturdays, 11:30a-12nET (main digital)
Total times aired at regularly scheduled time	11
Total times aired	13
Number of Preemptions	2
Number of Preemptions for other than Breaking News	2
Number of Preemptions Rescheduled	2
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Naturally, Danny Seo is a live action, half hour television program designed to meet the educational and informational needs of children aged 13 to 16. Naturally, Danny Seo is a series about seeking a healthier lifestyle by learning the science behind eating well, exercising your mind and body, and caring for our planet. Host Danny Seo is a leading authority on eco friendly living, and has devoted his career to the idea that caring for the environment can go hand in hand with enjoying time with family and friends, sharing delicious and healthy meals, while creating an environmentally friendly home. In each episode of Naturally, Danny Seo, viewers will be introduced to inspiring ideas from fun and healthy recipes, to easy and sustainable crafts. Viewers will learn how to embrace a natural lifestyle, easily and beautifully, along with quick tips on green living. This quarter viewers learn growing your own ingredients or using local ingredients to make fresh food is a great way to practice sustainability. Using uncommon ingredients to create unique flavors that resonate with you can be a way to express yourself and show creativity; Tofu is a versatile food that is not highly processed and has health benefits by being high in fiber and low in carbohydrates. Each part of a lemon provides a different benefit, allowing lemons to be used for multiple purposes, such as disinfecting. Turning a shopping bag into a gift bag by decorating it with recyclable materials is a unique way to help the environment and show your creativity; Kamut pasta is a great source of protein and fiber without additives. Ingredients, such as sunflower seeds, that are more commonly used for a snack or seasoning can also be used to replace carbohydrates, such as pasta, in a hearty meal; and many household ingredients have multiple purposes. Finding a way to reuse or recycle something instead of throwing it away prevents waste from going to landfills, which is good for the environment and can also help save money. Due to sporting events this quarter Naturally, Danny Seo aired in its secondary time period twice

Digital Core Program (5 of 12)	Response
Program Title	The Voyager with Josh Garcia
Origination	Network
Days/Times Program Regularly Scheduled	Sundays 11:30a-12nET (main digital)
Total times aired at regularly scheduled time	11
Total times aired	13
Number of Preemptions	2
Number of Preemptions for other than Breaking News	2
Number of Preemptions Rescheduled	2
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>The Voyager with Josh Garcia is a live action, half hour television program designed to meet the educational and informational needs of children aged 13 to 16. The Voyager with Josh Garcia takes viewers on an exciting and immersive journey around the globe with world traveler and host, Josh Garcia. Each episode gives audiences access to the worlds most incredible destinations as Josh seeks out the truly authentic experiences one can only find when shown by a knowledgeable and passionate guide. In each episode, Josh learns how to prepare an authentic, regional meal, visits a local artisan to learn about their trade and craft, and samples the culture while learning about the heritage of the regions population, showing viewers what is so unique about each city he visits. The Voyager with Josh Garcia brings viewers on an enthralling adventure to explore the people and cultures that make our world so breathtaking. This quarter Host Josh Garcia arrives in Ocho Rios, Jamaica and he rafts down the picturesque Martha Brae River, marveling at the exotic jungle scenery and learns of the areas culture and foods. Witnessing the process by which familiar foods and ingredients are harvested and produced can be rewarding; in Tokyo, Japan the crew and sets out to discover the sights, sounds, and flavors of this world class city. If you have the time, sometimes allowing yourself to get lost in a new city can be a great way to really immerse yourself in a new place and culture; in Thailand host Josh Garcia discovers mixing different flavor palates in one dish is more common than you might think. Sweet, salty, spicy, and aromatic flavors come in many forms, but across cultures many classic dishes are a combination of these very different flavors and when you are traveling to a new place, or even a place you have been before, take time to stay present in the current moment and take in the sights, sounds, and experience of where you are. At the end of the day write down a list of what you did and saw, so later you can recall those experiences, and maybe one day revisit them. The Voyager was displaced from its regular time period this quarter due to sporting events and rescheduled in secondary time periods.</p>

Number of Preemptions	4
Number of Preemptions for other than Breaking News	4
Number of Preemptions Rescheduled	4
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>Health and Happiness is a live action, half hour television program designed to meet the educational and informational needs of children aged 13 to16. Health and Happiness is a series about how simple lifestyle changes can make a huge difference in our health, well being, and even attitude. Host Joy Bauer, leading nutrition expert and influencer, dishes out helpful strategies on forming healthy eating habits, and cohost Vivien Williams brings science and innovation to the table on living a healthier and happier life. With the help of medical experts from Mayo Clinic, each week our hosts will educate viewers on a variety of topics that will not only teach teens and their families how to make better choices when it comes to healthy living, but may even inspire new daily activities that promote better wellness. As teen viewers reach an age when they begin to make more of their own lifestyle choices, this series will help them form healthy habits that are critical to inspiring a lifelong interest in living well. This quarter hosts Joy Bauer and Vivien Williams explore the benefits of pets on your health and how making small changes in your day to day life can yield big benefits. Whether it is making small changes to reduce sodium in your diet or changes to get better sleep, it all adds up to better health; Bringing nature home with you can be a great way to access greenery in your daily routine. Planting an herb garden can be a good start, and herbs can provide great flavor to meals while reducing the need for added salt for flavor; staying hydrated is essential, and it is important to make sure you drink enough water each day. When you are on the go, make sure you have a water bottle in tow. You can even get more water in each day by incorporating high water content fruits and vegetables into your meals for added hydration and creating small habits for yourself can turn into lasting practices, and, in turn, can keep you in better health. Getting in the habit of wearing a hat and long pants when going out for a walk can keep you protected from bugs and other outdoor irritants, improving the quality of your time spent outside. Health and Happiness was preempted four times this quarter rescheduled to secondary time periods.</p>

Digital Core Program (7 of 12)		Response
Program Title		Xploration Awesome Planet
Origination		Syndicated

Days/Times Program Regularly Scheduled	Sundays, 9:30-10am ET secondary digital
Total times aired at regularly scheduled time	13
Total times aired	13
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>Produced primarily for the 13-16 target audience, Xploration Awesome Planet will inspire and educate anyone interested in earth sciences. Our host, Philippe Cousteau, the grandson of legendary Jacques Cousteau, brings boundless energy to every location we visit. From magnificent mountains to violent volcanoes, this program takes an in-depth look at the unique and distinct features on planet Earth. We not only visit gigantic glaciers and behold their beauty but also discover why they formed, and how they shaped our landscape. Geological experts share their wisdom with Philippe, as we strive to understand places on the earth, inside the earth, and above the earth. Xploration Awesome Planet is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. Spawned by the Obama administration's focus on accelerating student learning in science, technology, engineering and math with a determination to help the US remain competitive in this arena, these family oriented programs strive to cultivate interest in STEM fields, develop strategies for improving knowledge as well as demonstrate STEM related challenges and solutions. . During some of the travels this quarter Cousteau unearths some of the ways scientists, students and regular citizens are working to save our Earth. From creating safe havens for New Zealands endangered species, to breeding clownfish in Australia, and introducing disadvantaged kids to the wonders of the oceans, these environment guardians are doing their part to make a positive impact in the world; In Pennsylvania viewers see how engineers are using new technology to fast track the replacement of more than 500 bridges. In New Orleans get an inside look at the citys newly constructed \$1.1 billion dollar hurricane protection facility. And a trip to Mexico reveals the ancient symbolism hidden in the Mayan ruins. Viewers look at different examples of cultural science. In Hawaii, Philippe paddles out on a 6 man canoe during a lesson in early Hawaiian navigation., then it is off to Florida to join members of the Seminole tribe who show us different uses of plants as tools and food in the harsh terrain of the everglades.</p>

Days/Times Program Regularly Scheduled	Sundays, 10-10:30am ET secondary digital
Total times aired at regularly scheduled time	13
Total times aired	13
Number of Preemptions	0
Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0
Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>This half hour weekly series produced for the 13 to16 target audience will attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet. Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars like habitat. We will have episodes on space robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. The series is produced with the intention of increasing and expanding our target audience interest in the field of STEM education. Adventures and information this quarter include a lot of misinformation about our solar system. Host Emily Calandrelli speaks to two experts who debunk many of the myths about outer space, including the myth that Mercury is the hottest planet in our solar system; Host Emily Calandrelli looks at NASAs next mission to send a spacecraft that will touch the sun. She also witnesses a total solar eclipse, and visits a man who races homing pigeons, a bird that uses the sun to navigate its way home from hundreds of miles away; Many private companies are working with NASA to make space exploration more efficient. Host Emily Calandrelli visits the Sierra Nevada Corporation, which is building a spacecraft that can deliver cargo to and from the International Space Station; Four astronauts who have gone on missions into outer space share their perspective of life in micro gravity. Host Emily Calandrelli visits each astronaut, including Story Musgrave, the only astronaut to fly aboard all five space shuttles, and Anna Fisher, one of the first American females to go into space.</p>

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	<p>What will the world look like in 2050. Where will advancements in science, technology, engineering, and mathematics lead us. Xploration Earth 2050 strives to answer these questions and more with scientists, inventors, doctors, science fiction writers, and creative thinkers. This half hour weekly series, produced primarily for the 13 to16 year old target audience will appeal to the whole family. Viewers are taken on an educational adventure as the show tackles future challenges in everything from transportation to health care to the environment. Xploration Earth 2050 is a half hour weekly Educational and Informational series produced with the intention of increasing and expanding our target audience interest in the field of STEM education. Spawned by the Obama administrations focus on accelerating student learning in science, technology, engineering and math with a determination to help the US remain competitive in this arena, these family oriented programs strive to cultivate interest in STEM fields, develop strategies for improving knowledge as well as demonstrate STEM related challenges and solutions. This quarter host Chuck Pell discovers the new world of soft robotics, where robots are so Human like they can actually feel things. Chuck Pell has a conversation in real time with a hologram of a holocaust survivor. Thanks to new tech these survivors will be able to personally relate their experiences, forever. And we visit a futuristic deep freeze, where people have their bodies cryogenically frozen in the hope that they will one day emerge healthy and happy; Artificial Intelligence, or AI, is all the rage among futurists. Is it good, bad, something to be worried about, or something to be embraced? Host Chuck Pell talks to leaders in the field of AI. They discuss Deep Blue, the IBM computer that beat the best chess player in the world, and show how games are key to creating working AI. Doctors and botanists have come together to GROW medicine. Host Chuck Pell visits a lab where vaccines are developed inside of plants and then processed into pills, a development that could save millions of lives in the future.</p>

Number of Preemptions for other than Breaking News	0
Number of Preemptions Rescheduled	0

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13 to 16 target audience, Xploration: Nature Knows Best will inspire and educate audiences of all ages. Host and Marine Biologist, Danni Washington, exudes energy as she relates how current technology was inspired by nature, and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few such vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers are not the only scientists looking toward nature. We will also meet with biologists studying the behavior patterns of ants, architects who design living buildings and roboticists who are making their designs bigger, stronger, and faster based on animals. This series will show kids how understanding nature can help them make the next great discovery. Xploration: Nature Knows Best is a half hour weekly E I series produced with the intention of increasing and expanding our target audience interest in the field of STEM education. Everything uses energy but humans are the only species destroying our planet to create it. Host Danni Washington will discover that not only do all other organisms have better means of gathering energy, but by studying their eyes, their fins, and the ways they move we can find ways to improve solar power, wind power, and even kinetic power! The ocean covers more than 70 percent of our planets surface and humankind has only explored about 5 percent of it. But the diverse wildlife from the areas we have investigated serves as a major source of inspiration for modern technology; Every species found in nature is a survivor, there is a reason they have been on the planet for as long as they have. So host Danni Washington is trying to figure out what humankind can learn from them that we can use to protect ourselves. She explored how fish are helping us to build better armor, how woodpeckers are assisting us to address a top safety concern in the form of concussions, and how one of the deadliest creatures found in nature is now saving lives by keeping planes in the sky during icy conditions

<p>Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.</p>	<p>Since 1989, The More You Know has brought the nations most important social issues to the forefront, and remains a trusted voice for sharing knowledge to improve lives and inspire action. The More You Know comprehensive website (themoreyouknow.com) includes in depth resource and referral information on the campaigns important focus issues including: HEALTH fighting childhood obesity, encouraging nutrition and physical fitness ENVIRONMENT encouraging everyday actions that reduce environmental impact EDUCATION recruiting new teachers and promoting their long-lasting impact DIGITAL LITERACY &amp; INTERNET SAFETY sharing online safety tips and information and DIVERSITY embracing differences and promoting inclusion, tolerance and respect. Also featured on site is The More You Know Learning series Growing Up Online, a free eBook on digital literacy and Internet Safety. Growing Up Online is an important tool to initiate conversation with children about online safety. The eBook is a media rich, two part learning resource that provides easy to use information about navigating the digital world in a unique and engaging way. Part one includes safety tips, discussion questions and key takeaways for parents and teachers. Part two features four entertaining video comic books for children, focused on real situations that come up when kids go online. Additional content on the site includes public service announcements, behind the scenes videos, a general overview, a talent directory, and a list of the campaigns accolades such as the numerous prestigious Emmy and Peabody awards. WBBH continues its almost 3 decades association with the Lee Public Schools Foundation in producing and presenting The A Team Challenge. This high school quiz show, hosted by WBBH meteorologist Rob Duns recognizes and applauds the academic achievements of area students. More than 30 area high schools compete in this weekly quiz game that test students abilities in math, geography, social studies, literature and general knowledge. The weekly games air on area cable systems on the educational channel as well as the closed circuit school channel. Beginning with the quarter finals through the championship round, the matches aired on WBBH primary channel on Sundays, beginning April 8th through April 29th from noon until 1pm. WBBH is also a proud sponsor of the annual Golden Apple Awards which recognizes area teachers for the positive impact they have on their students in and out of the classroom in both Lee and Collier counties. Students nominate their teachers for the prestigious award. Leading up to the hour primetime special, WBBH news airs human interest pieces on these nominated individuals. On April 8th from 7-8pm WBBH produced and aired the Lee County Golden Apple Awards where some of the classrooms finest educators were honored and the Collier County Golden Apple Awards honorees televised special aired on Sunday, April 22nd from 7-8pm. On May 25th, 2018, Waterman Broadcasting was recognized as Business Partner of the Year at the Annual State of Education Prayer Breakfast. NBC2 was acknowledged for being a valuable supporter of the Lee County School District and the Foundation for Lee County public schools; for participating in job fair days, providing classrooms with meteorologists to teach students about weather and weather safety as well as hosting and taping specific events for the school system. NBC2 was also honored for its technical contributions and coverage of events such as The Golden Apple Teacher Recognition program, STEM@Work and the A Team Challenge. Many staffers serve on committees or boards of organizations that target services to the youngsters in our area from mentoring to overseeing allocations of financial assistance. The station is an active business participant in the STEM community project. This program in conjunction with the area educational systems promotes the advancement of Science, Technology, Engineering and Math educations. In addition we offer station tours to various youth organizations and classrooms giving a glimpse of the behind the scene operations. WBBH on air talent and management personnel continue to give their individual support on behalf of the station as special guests, lecturers, and hosts to area youth events, organizations and in the classrooms throughout the market. Station tours are also available for classrooms and youth organizations to schedule. Additionally, WBBH offers guided tours to classrooms and groups who are interested in learning more about the industry,</p>
