Health, Happiness with Mayo Clinic is a live action, half-hour television program designed to meet the educational and informational needs of children aged 13-16. Heath, Happiness with Mayo Clinic is a series about how simple lifestyle changes can make a huge difference in our health, well-being, and even attitude. Host Joy Bauer, leading nutrition expert and influencer, dishes out helpful strategies on forming healthy eating habits, and co-host Vivien Williams brings science and innovation to the table on living a healthier and happier life. With the help of medical experts from Mayo Clinic, each week our hosts will educate viewers on a variety of topics that will not only teach teens and their families how to make better choices when it comes to healthy living, but may even inspire new daily activities that promote better wellness. As teen viewers reach an age when they begin to make more of their own lifestyle choices, this series will help them form healthy habits that are critical to inspiring a lifelong interest in living well.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Although change can be unsettling, most parents and educators know how readily kids embrace it. The episodes of Xploration Station Earth 2050 build on fascination children have for the power of technology, not only the seeming magic of it, but also its ability to solve pressing problems. As an early adopter and with my own long time interest in futurism, it's clear to me that students want to understand where science and technology are taking us, and the kind of world we are creating for our own children. Xploration Station Earth 2050 shows students the potential of technological trends, such as robotics, automated transport system and artificial intelligence, to change our world for the better.
