Digital Core Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	4.5
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	336.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	8.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Multicast Digital Channel-MeTV -Mystery Hunters is an excellent example of a children's program that is innovative and empowering. Through critical observation, analytical thinking, and scientific testing, the series encourages children to question the world around them. Through both the travel aspect and investigation of ancient myths and mysteries, there is a profound focus on history, culture, geography, and international customs. The Mystery Hunters and Araya and Christina, regular kids with inquisitive minds, who travel the globe to investigate the sites and delve into the tales which have baffled people throughout the ages-looking for the Loch Ness Monster, unraveling a smelly mummy, searching for Princess Anastasia, and learning the true story of King Tut. Armed with video cameras and their instincts, they gather facts and meet the experts, debunking common myths and offering explanations for legends, spooky stories, and unexplained phenomena. They use critical thinking and scientific reasoning to show that things are not always what they seem. Back at the Discovery Mystery Lab, Doubting Dave, the resident skeptical scientist, challenges viewers to send in their own mysteries, and then tackles the questions with experiments and logical explanations. Dave also assists the Mystery Hunters with their investigations.

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Multicast Digital Channel--MeTV - "Saved By The Bell" is a weekly television series targeted to teens 13-16 years of age, which explores social themes and coping strategies through the daily school life of six teen-aged friends at Bayside High who help each other make the most of growing up in a complicated world. The multi-ethnic cast members serve as role models for young teen viewers as they deal with such issues as dealing with the death of a loved one, the right to say "no," the meaning of heroism, teenage alcohol use and other issues of particular concern to young teens. The Children's Television Act of 1990 ("CTA") imposed a requirement on the FCC to consider in its review of television station renewals the extent to which the licensee had served the educational and informational needs of children through its overall programming, including programming specifically designed to serve such needs. In adopting the CTA, Congress recognized a number of existing programs that already served such needs and in that context specifically mentioned "Saved By The Bell" in the Senate Report that accompanied the CTA, describing the program as "valuable" and "aimed at high school students and addressing typical problems and conflicts faced by teens." In adopting the regulations that implemented the CTA in 1991, the FCC also noted that Congress had singled out "Saved By The Bell" for mention: "The legislative history provides a wealth of examples of children's programming that is educational and informational. These include . . . "Saved By The Bell" (topical problems and conflicts faced by teens) . . . . Where determinations of whether a program qualifies as 'educational and informational' are in doubt, we will expect licensees to substantiate their determinations. We will rely on the guidance given in the legislative history, including the specific examples cited above, in ruling on the sufficiency of such demonstrations." Consistent with these findings, the FCC has granted the renewal applications of television stations that have relied on "Saved By The Bell" to satisfy their obligation to air programming specifically designed to serve the educational and informational needs of children aged 16 years and under.

Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Multicast Digital Channel-MeTV -Mystery Hunters is an excellent example of a children's program that is innovative and empowering. Through critical observation, analytical thinking, and scientific testing, the series encourages children to question the world around them. Through both the travel aspect and investigation of ancient myths and mysteries, there is a profound focus on history, culture, geography, and international customs. The Mystery Hunters and Araya and Christina, regular kids with inquisitive minds, who travel the globe to investigate the sites and delve into the tales which have baffled people throughout the ages-looking for the Loch Ness Monster, unraveling a smelly mummy, searching for Princess Anastasia, and learning the true story of King Tut. Armed with video cameras and their instincts, they gather facts and meet the experts, debunking common myths and offering explanations for legends, spooky stories, and unexplained phenomena. They use critical thinking and scientific reasoning to show that things are not always what they seem. Back at the Discovery Mystery Lab, Doubting Dave, the resident skeptical scientist, challenges viewers to send in their own mysteries, and then tackles the questions with experiments and logical explanations. Dave also assists the Mystery Hunters with their investigations.

Program Title	Saved by the Bell MeTV
Origination	Network
Days/Times Program Regularly Scheduled	SUN 10:00-10:30 AM
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Multicast Digital Channel--MeTV - "Saved By The Bell" is a weekly television series targeted to teens 13-16 years of age, which explores social themes and coping strategies through the daily school life of six teen-aged friends at Bayside High who help each other make the most of growing up in a complicated world. The multi-ethnic cast members serve as role models for young teen viewers as they deal with such issues as dealing with the death of a loved one, the right to say "no," the meaning of heroism, teenage alcohol use and other issues of particular concern to young teens. The Children's Television Act of 1990 ("CTA") imposed a requirement on the FCC to consider in its review of television station renewals the extent to which the licensee had served the educational and informational needs of children through its overall programming, including programming specifically designed to serve such needs. In adopting the CTA, Congress recognized a number of existing programs that already served such needs and in that context specifically mentioned "Saved By The Bell" in the Senate Report that accompanied the CTA, describing the program as "valuable" and "aimed at high school students and addressing typical problems and conflicts faced by teens." In adopting the regulations that implemented the CTA in 1991, the FCC also noted that Congress had singled out "Saved By The Bell" for mention: "The legislative history provides a wealth of examples of children's programming that is educational and informational. These include . . . "Saved By The Bell" (topical problems and conflicts faced by teens) . . . . Where determinations of whether a program qualifies as 'educational and informational' are in doubt, we will expect licensees to substantiate their determinations. We will rely on the guidance given in the legislative history, including the specific examples cited above, in ruling on the sufficiency of such demonstrations." Consistent with these findings, the FCC has granted the renewal applications of television stations that have relied on "Saved By The Bell" to satisfy their obligation to air programming specifically designed to serve the educational and informational needs of children aged 16 years and under.
