Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	On the Digital Core Programming page of this report, the report website would not allow me to enter a value for "state the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than it's main program stream." The max value I could enter was 999.9 so I entered that because the actual value should be 1176 hours but the website would not allow that value to be entered without crashing. I previously opened FCC ticket #481413 to ask for a resolution to this issue.
