Digital Core
Programming

| Question | Response |
|---|----------|
| State the average number of hours of Core Programming per week broadcast by the station on its main program stream | 3.0 |
| State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream | 168.0 |
| State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671: | 3.0 |
| Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673? | Yes |
| Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams? | Yes |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Series host, science educator and leader in the field of professional educational training, Steve Spangler encourages the discovery of scientific concepts through experiments viewers can perform at home. Emphasizing safety, Steve turns the everyday world into a laboratory, taking viewers step-by-step through demonstrations of do-it-yourself experiments that amaze while at the same time highlighting solid scientific principles. Each episode features a unique scientific concept illustrated using ordinary household items with the end result linked to real-world applications. The series is produced with the intention of increasing and expanding its target audiences interest in Science, Technology, Engineering and Mathematics (STEM) fields and encouraging a lifelong interest in science. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This series approaches animal behavior from a uniquely scientific perspective. While most animal shows look only at the outward behaviors of animals, XPLOATION ANIMAL SCIENCE goes one step further, exploring why animals are able to excel in their environments and how they have adapted for optimal survival. Building on viewers natural curiosity about the world around them, the series examines compelling questions, such as how animals use their unique characteristics to escape danger and how they manage to secure the food necessary for survival. As the series goes on location, viewers are exposed to regions all over the world, each with their own remarkable wildlife populations. Animation, graphics and scientific analysis provide viewers with a deeper understanding of a variety of amazing creatures while stunning footage reinforces the learning experience. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | AVENTURAS CON DYLAN DREYER is a live action, half hour television program designed to meet the educational and informational needs of children aged 13 to16. Aventuras Con Dylan Dreyer is a wondrous celebration of nature. Hosted by meteorologist Dylan Dreyer, this series features breathtaking cinematography that will bring viewers up close and personal with creatures big and small, from the black bears of Montana to polar bears in the Arctic. Audiences will have a unique platform to see animals living in their natural habitat, and will learn about the circle of life along the way. Aventuras Con Dylan Dreyer also explores natural wonders of the world, including the migration of 1.5 million animals traveling over 500 miles across the Serengeti in Tanzania and Kenya. Viewers will uncover these amazing facts of nature, and learn why it is so important to protect Earths natural resources and all its inhabitants. |

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | Produced primarily for the 13 to 16 year old target audience, XPLOATION NATURE KNOWS BEST inspires and educates audiences of all ages. Host and marine biologist, Danni Washington, illustrates how technology all around us was inspired by nature and how modern innovators are continuing the practice from airplanes inspired by birds, to helicopters influenced by the dragonfly, to a wingsuit based on the flying squirrel. But engineers are not the only scientists looking toward nature. The program covers biologists studying the behavior patterns of ants; architects who design living buildings; and roboticists who are making their designs bigger, stronger, and faster based on animals around us. This series not only encourages interest in STEM fields but shows children how getting outside and taking a look around could provide inspiration for the next great discovery. |
