Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	We continue to offer tours of the station as an educational opportunity for children in the community, and expect to see more tours scheduled as the year progresses. Due to earthquake damage and evacuation from our regular location, it may be a few months before we are in a position to conduct the tours, however. As of this report, we are not yet back in our regular facility. On Friday, March 1, 2019, a meteorologist from our news department read books to children at Machetanz Elementary School for Dr. Seuss birthday events. Our Chief Meteorologist participated in a science competition held at the University of Alaska Anchorage for middle and high school students from a cross the state. She wrote, proctored and graded tests for the meteorology portion of the competition. There were several hundred kids in attendance. This event was on Saturday, March 9, 2019 and was called the "Alaska Science Olympiad."
