| Broadcaster                              | Question   | Response  |
|--|--|---|
| Information<br>and<br>Transition<br>Plan | Will the station be sharing equipment with<br>another broadcast television station or<br>stations (e.g., a shared antenna, co-location<br>on a tower, use of the same transmitter<br>room, multiple transmitters feeding a<br>combiner, etc.)? If yes, enter the facility ID's<br>of the other stations and click 'prefill' to<br>download those stations' licensing<br>information. | Yes   |
|  | Briefly describe transition plan   | The transition from channel 41 to channel<br>14 requires shared interim systems with<br>KMEG and KPTH through a combiner. KTIV<br>will require a new antenna, line and<br>transmitter to complete the transition. |

### Primary Antenna Section Question Response **Combiner for Shared** Do you need a Combiner for a Shared No Antenna Antenna? Туре Number of channels supported N/A Frequencies of channels supported N/A Frequency N/A Do you need a combiner output splitter N/A /switcher for dual feed lines? **Elbow Complex** Do you require the separate purchase of Yes the Elbow Complex? Broadband or Single Channel? Broadband Feed Line Size 6 1/8 inches

**Other Antenna Costs** 

| Side Mount Brackets      | Do you require the separate purchase of side mount brackets for a high power antenna?                       | No  |
|--------------------------|---|-----|
| Pattern Scatter Analysis | Do you require separate purchase of pattern scatter analysis for a side mount high or medium power antenna? | No  |
| Sweep Test               | Do you require the sweep testing of transmission line and antenna?  | Yes |

# Primary Other Antenna Cost Not Listed
