Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This half-hour weekly series produced for the 13-16 target audience will certainly attract viewers of all ages. Each week our host Emily Calandrelli will take viewers on incredible journeys through space that will both entertain and educate. Ever wonder what it would be like to live in space or on a different planet? Watch our host try to perform every day responsibilities while floating in zero gravity. Explore the challenges that come along with living on a different planet as our host lives like an astronaut in a Mars-like habitat. We will have episodes on space, robotics, commercial space tourism, asteroids, and our search for life, among many others. When appropriate, the host will highlight NASA related programs and internships for young students that are relevant to the content we have shown. Xploration Outer Space is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interested in the field of STEM education. "Xploration Outer Space" is broadcast on the stations tertiary digital channel only.

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience. Xploration DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training - Steve Spangler - encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science. For instance, Steve Spangler became nationally-known with a video showing him dropping the candy "Mentos" into a bottle of diet soda. It erupts in a geyser of soda. On Xploration DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts the way to the candy. Xploration DIY Sci is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home. "Xploration DIY Sci" is broadcast on the stations tertiary digital channel only.

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the "Weird But True" science at play all around us. With a mix of graphics and handmade art, this E/I series is fun, playful and educational. For instance, in the first episode, our hosts are curious to learn about asteroids - and so they set off to explore the biggest meteor crater in the US and meet a real-life meteorite hunter. They also try their hand at tracking down space rocks. Along the way, they discover that meteor crash sites can turn into quicksand! On Xploration Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. Xploration Weird But True is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them. "Xploration Weird But True" is broadcast on the stations tertiary digital channel only.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist, Danni Washington, exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers aren't the only scientists looking toward nature. We will also meet the biologists studying the behavior patterns of ants: architects who design "Living Buildings"; and roboticists who are making their designs bigger, stronger and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery! Xploration Nature Knows Best is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. <p>Describe the educational and informational objective of the program and how it meets the definition of Core Programming.</p>	<p>Culture Click is a weekly half-hour series that explores the genesis of - and reasons behind - cultural events that permeate our everyday lives. Developed and produced for viewers aged 13-16, host Nzinga Blake opens each episode from here virtual reality set with a list of what is trending on search engines that week. These topics will serve as a jumping-off point for a deep dive into the culture viewers 13-16 will embrace. Each week Nzinga will analyze and answer the questions that shape our society - using the power and speed of the internet and user-generated questions and content. Experts in pop culture will join her to add insight and historical perspective. And most importantly, viewers will come away with a week's worth of moments to share with their friends and family. Six degrees of separation takes on a whole new meaning, and there is no limit to what viewers will learn when they experience Culture Click. Is broadcast on the stations secondary digital channel only.</p>

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	STATIONS PRIMARY DIGITAL CHANNEL - ABC Affiliate and ABC Network "FosterMore Donate Your Small Talk" Campaign. Foster Care Awareness May-June 2019. America is forgetting about the children in the Foster Care system. We are not talking about them anymore. So, the first thing to do is get them back into the cultural conversations, by asking everyone to donate their small talk to Foster Care and to stop wasting their small talk on mindless conversations about the weather or weekend plans and donate it to talk foster care. Because talking about foster care, can foster care. We can help change the lives of millions of kids.

Program Title	Xploration DIY Sci
Origination	Syndicated
Days/Times Program Regularly Scheduled	Thursdays/11-11:30 AM MT
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience. Xploration DIY Sci will inspire and educate audiences of all ages. Host, science educator, and leader in the field of professional educational training - Steve Spangler - encourages the discovery of scientific concepts through experiments viewers can do at home. With a fun, relaxed attitude, Steve will take viewers through step-by-step demonstrations of do-it-yourself experiments that amaze but which also relate back to solid principles of science. For instance, Steve Spangler became nationally-known with a video showing him dropping the candy "Mentos" into a bottle of diet soda. It erupts in a geyser of soda. On Xploration DIY Sci, Spangler demonstrates the experiment and also explains the science of why, on a molecular level, the soda reacts the way to the candy. Xploration DIY Sci is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help kids understand how they can discover the principles of science with items they can find in their very own home. To be broadcast on the stations tertiary digital channel only.

Program Title	Xploration Weird But True
Origination	Syndicated
Days/Times Program Regularly Scheduled	Fridays/11-11:30 AM MT
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Weird But True will inspire and educate audiences of all ages. This series, produced in partnership with National Geographic Kids, is hosted by the brother-sister team of Charlie and Kirby Engleman. Charlie is an Ecologist and Kirby is an Artist, and they are both National Geographic Junior Explorers. Together, they share a common curiosity to explore and understand the science behind the world and its wildlife. In this series, Charlie and Kirby explore a new topic each week to uncover the "Weird But True" science at play all around us. With a mix of graphics and handmade art, this E/I series is fun, playful and educational. For instance, in the first episode, our hosts are curious to learn about asteroids - and so they set off to explore the biggest meteor crater in the US and meet a real-life meteorite hunter. They also try their hand at tracking down space rocks. Along the way, they discover that meteor crash sites can turn into quicksand! On Xploration Weird But True, Charlie and Kirby inspire teens to question the HOW and WHY behind the way our world works, and encourage them to discover answers to their most curious questions. Xploration Weird But True is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. This series will help teens and viewers of all ages learn to question the world around them. To be broadcast on the stations tertiary digital channel only.

Program Title	Xploration Nature Knows Best
Origination	Syndicated
Days/Times Program Regularly Scheduled	Fridays/11:30-12 PM MT
Total times aired at regularly scheduled time	13
Length of Program	30 mins

Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Produced primarily for the 13-16 target audience, Xploration Nature Knows Best will inspire and educate audiences of all ages. Host and marine biologist, Danni Washington, exudes energy as she relates how technology all around us was inspired by nature and how modern innovators are continuing with this practice. We will whirl around in airplanes inspired by birds, and in helicopters influenced by the dragonfly, and even jump from a few vehicles to illustrate how wingsuits were invented based on the flying squirrel! But engineers aren't the only scientists looking toward nature. We will also meet the biologists studying the behavior patterns of ants: architects who design "Living Buildings"; and roboticists who are making their designs bigger, stronger and faster based on animals. This series will help kids to understand how getting outside and taking a look around can help them make the next great discovery! Xploration Nature Knows Best is a half-hour weekly E/I series produced with the intention of increasing and expanding our target audience' interest in the field of STEM education. To be broadcast on the stations tertiary digital channel only.
