Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Cat in the Hat Knows a Lot About That!? is designed to spark a love of learning and an interest in science in preschool-aged children. Based on Random House's best-selling Beginner Book collection "The Cat in the Hat's Learning Library?," the TV series and online resources are designed to cultivate positive views about science and scientists among the next generation - the children who will become tomorrow's citizens and innovators - and help teachers and families build communities of science explorers. In each program, the Cat in the Hat and his friends Sally and Nick go on a science adventure, such as flying with birds to discover how and why they migrate or taking a snowcat to the Arctic to explore freezing and melting. Guided by the Cat, the children figure things out by engaging in science inquiry. Each half-hour episode consists of two 11-minute animated adventures, along with corresponding short animated clips. Each adventure revolves around a specific science concept such as bird migration or animal camouflage.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	NATURE CAT follows Fred, a house cat who dreams of exploring the great outdoors. In each episode, once his family leaves for the day, Fred transforms into Nature Cat, "backyard explorer extraordinaire." Nature Cat can't wait to get outside for a day of backyard nature excursions and bravery, but there's one problem: He's still a house cat with no instincts for nature. Like many of today's kids, Nature Cat is eager and enthusiastic about outside activities, but is at times intimidated by them. With the help of his animal friends, Nature Cat embarks on action-packed adventures that include exciting missions full of nature investigation, "aha" discovery moments and humor, all while inspiring children to go outside and "play the show."

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	A breakthrough preschool series designed to help kids with the critical skills that they need to learn to read (and love to read!) As recommended by the national reading panel (alphabet skills, word families, spelling, comprehension, and vocabulary). In every episode, one of the friends encounters a problem with another Storybrook Village character (for instance, Jill from the Jack and Jill rhyme is not being nice). As in real life, the problems require preschool social skills to resolve. And that's when Super Why gets super-powered! Whyatt calls his fairy tale friends to their secret clubhouse, named "The Book Club," where they transform themselves from mere mortals into literacy-powered super heroes: Alpha Pig with "alphabet power," Wonder Red with "word power," Princess Presto with "spelling power," Super Why with the "power to read," and your child-super You, with the "power to help." using their super powers, these super readers literally fly inside books. The adventure begins as the Super Readers find out how famous fictional characters handled similar situations (why is the Big Bad Wolf so big and bad?) This adventure inside a book helps the Super Readers figure out the answers to their own problems. Be prepared to hear: Super Why! And Super Readers to the rescue!

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series now takes the natural appeal of animals and harnesses it towards the goal of teaching science concepts to children ages 6- 8. Educationally, Wild Kratts is timely, focusing on science just as educational indicators show an alarming trend of low performance and interest in science in today's children in international comparisons (NSF Indicators 2004). The smart, fun, confident, enthusiastic characters of Wild Kratts provide role models that are culturally diverse to ensure that a wide range of viewers can identify with, and thus learn with, the characters in the show.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Curiosity about space starts very early. As soon as kids are old enough to look up at the night sky, they begin to wonder, what is up there? Is there life somewhere, impossibly far away? Can we get there? Who better to ask about space than someone who has actually been there, an alien boy named Jet Propulsion. Ready Jet Go is a kid's first introduction to space, earth science, and technology, presented in an entertaining and engaging way that will inspire a lifelong interest. Kids ages 3 to 8 will be learning alongside a seasoned space traveler. As an alien from Borton 7, Jet sees our Planet Earth like we want our kids to see it, with a sense of curiosity and wonder.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	A breakthrough preschool series designed to help kids with the critical skills that they need to learn to read (and love to read!) As recommended by the national reading panel (alphabet skills, word families, spelling, comprehension, and vocabulary). In every episode, one of the friends encounters a problem with another Storybrook Village character (for instance, Jill from the Jack and Jill rhyme is not being nice). As in real life, the problems require preschool social skills to resolve. And that's when Super Why gets super-powered! Whyatt calls his fairy tale friends to their secret clubhouse, named "The Book Club," where they transform themselves from mere mortals into literacy-powered super heroes: Alpha Pig with "alphabet power," Wonder Red with "word power," Princess Presto with "spelling power," Super Why with the "power to read," and your child-super You, with the "power to help." using their super powers, these super readers literally fly inside books. The adventure begins as the Super Readers find out how famous fictional characters handled similar situations (why is the Big Bad Wolf so big and bad?) This adventure inside a book helps the Super Readers figure out the answers to their own problems. Be prepared to hear: Super Why! And Super Readers to the rescue!

Total times aired at regularly scheduled time	215
Length of Program	30 mins
Age of Target Child Audience from	6 years to 9 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This series now takes the natural appeal of animals and harnesses it towards the goal of teaching science concepts to children ages 6- 8. Educationally, Wild Kratts is timely, focusing on science just as educational indicators show an alarming trend of low performance and interest in science in today's children in international comparisons (NSF Indicators 2004). The smart, fun, confident, enthusiastic characters of Wild Kratts provide role models that are culturally diverse to ensure that a wide range of viewers can identify with, and thus learn with, the characters in the show.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Curiosity about space starts very early. As soon as kids are old enough to look up at the night sky, they begin to wonder, what is up there? Is there life somewhere, impossibly far away? Can we get there? Who better to ask about space than someone who has actually been there, an alien boy named Jet Propulsion. Ready Jet Go is a kid's first introduction to space, earth science, and technology, presented in an entertaining and engaging way that will inspire a lifelong interest. Kids ages 3 to 8 will be learning alongside a seasoned space traveler. As an alien from Borton 7, Jet sees our Planet Earth like we want our kids to see it, with a sense of curiosity and wonder.
