Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Parents need to know that this series spotlights young athletes who work hard at their chosen sport. The show is appropriate for all children but will definitely have the most appeal for those interested in sports. It's worth noting that while the show does feature positive role models for kids, it also mirrors some of the gender and racial differences and inequities that continue to exist in sports today. Families can talk about gender and racial inequities in sports. Why are men's sporting events televised more often than women's? Why do you think some sports have more players from a specific racial/ethnic group than others? Does that play into any stereotypes, either in the media or day-to-day life? How so? Families can also discuss the work and commitment it takes to achieve elite status in the sports world. What sacrifices do young athletes make in order to make college and national teams? Although the show focuses on the players' athletic prowess -- and the awards and scholarships they've received because of their talents -- it also presents these young athletes as regular kids, many of whom spend their time volunteering, tutoring children with learning disabilities, and more.
