Broadcaster	Question	Response
Information and Transition Plan	Will the station be sharing equipment with another broadcast television station or stations (e.g., a shared antenna, co-location on a tower, use of the same transmitter room, multiple transmitters feeding a combiner, etc.)? If yes, enter the facility ID's of the other stations and click 'prefill' to download those stations' licensing information.	No
	Briefly describe transition plan	Licensee will replace station's antenna, transmitter, and transmission line for the repack transition. A new antenna will be placed at the top of the tower, so for the interim period the station will remain on the air with the current side mount antenna.
