| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | This program is an exciting and entertaining series which takes viewers on location to explore the magnificent and immense world of Africa's animals. Ushaka, a young South African host, takes the viewer from the brushlands of the Savanna to the great Okavango, and from the greatest game reserves to the most remote beaches of Madagascar, and more. The viewer will see everything from rare African birds to "creepy crawlers", to animal babies interacting with their mothers and siblings. The viewer will learn about life science as well as biological facts, which will educate the viewer about the natural activities of a species as well as its environment, the need for wildlife conservation, and how to better support the protection of endangered species. This program will air on the secondary digital stream, WTCN 43.2. |
