Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas is an entirely appropriate title for this engaging and informative series. Just as browsing through a good atlas makes information about terrain and natural boundaries accessible and appealing, this program brings information about the natural world of animals to viewers in a non-didactic, entertaining way. Its approach in no way diminishes the learning that takes place when observations lead to conclusions and young minds will draw many conclusions about the natural world shown in this series. These conclusions are consistent with nationally published curriculum goals in the natural sciences. They include concepts such as the functions of animals in an ecosystem (predator/prey relationships, etc.), the elements of animal classification, and the general emphasis on life science.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Future Phenoms is an educational and informational program that encourages our youth in several aspects of life. Future Phenoms is such an inspiration for both our youth and their parents. As families watch this show, the featured students and their stories of overcoming adversity resonate within students and parents alike. Students are challenged to overcome their personal adversities in life and find an outlet to pursue their dreams, while parents find that their position in their child's life is to encourage their dreams. By watching Future Phenoms, students have a stronger desire to participate in extracurricular activities. Essential to the educational process, parents see how extracurricular activities can give their children the confidence to pursue knowledge, pursue a healthy, active lifestyle, and pursue their dreams, despite the difficulties that life brings. Future Phenoms has been extremely influential in helping our youth realize the full potential they can accomplish both in the classroom and on the playing field. Recognizing athletes for classroom achievements as well as their contributions in extracurricular activities helps students to understand the importance of dedication, discipline, commitment to academics, and community involvement.

Program Title	Animal Atlas (Digital Channel 43.2 Bounce TV)
Origination	Syndicated
Days/Times Program Regularly Scheduled	Saturdays, 11A (4/2/16-6/25/16)

Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Animal Atlas is an entirely appropriate title for this engaging and informative series. Just as browsing through a good atlas makes information about terrain and natural boundaries accessible and appealing, this program brings information about the natural world of animals to viewers in a non-didactic, entertaining way. Its approach in no way diminishes the learning that takes place when observations lead to conclusions and young minds will draw many conclusions about the natural world shown in this series. These conclusions are consistent with nationally published curriculum goals in the natural sciences. They include concepts such as the functions of animals in an ecosystem (predator/prey relationships, etc.), the elements of animal classification, and the general emphasis on life science.
