Doki offers fun characters each with their own strengths and weaknesses, therefore offering a broad representation of possible at-home viewers. The team is supportive of one another and the world of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer, i.e. encouraging the viewer to assist on-screen characters to solve problems, and this series might benefit from this type of interaction, Doki does offer enthusiastic characters, real questions, and an arguably realistic presentation of discovery. Combined, these elements will keep children engaged and support their learning.

The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things Hooman (that's Floogal-speak for human,) the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem solving as nothing on earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multi-step process of watching, listening, touching, and note-taking until they've figured out what and how their new discovery fits into the Hooman universe.

In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure which is a fantasy transformation to animation where Bunji and Stitches come alive and join Chica and Kelly for the problem-solving process. The core educational content is primarily socio-emotional development as Chica learns how to express herself properly, think before she acts, and interacts with other effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Floogals is an animated show starring three space aliens--Fleeker, Flo and Boomer--who have been sent to earth to explore, investigate, discover and report their findings to their superiors at Floogal headquarters. The diminutive Floogals are no taller than a large safety pin and their visual perspective is literally the point of view of the show. With the multiple challenges of their size and ignorance of all things Hooman (that's Floogal-speak for human,) the Floogals have a lot of work on their hands. They are engaged in the dual processes of discovery and problem solving as nothing on earth is familiar to them. Much like young children, they begin by encountering something new and then go through a comedic multi-step process of watching, listening, touching, and note-taking until they've figured out what and how their new discovery fits into the Hooman universe.

Program Title	Doki (4.3)
Origination	Network

Days/Times Program Regularly Scheduled	Wednesdays, 8:00 am; 8:30 am
Total times aired at regularly scheduled time	26
Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Doki offers fun characters each with their own strengths and weaknesses, therefore offering a broad representation of possible at-home viewers. The team is supportive of one another and the world of Doki and its characters reflects the media landscape of today's child. Although the most supportive programming involves the audience through presentation of material in a way that demands intellectual interaction on the part of the viewer, i.e. encouraging the viewer to assist on-screen characters to solve problems, and this series might benefit from this type of interaction, Doki does offer enthusiastic characters, real questions, and an arguably realistic presentation of discovery. Combined, these elements will keep children engaged and support their learning.
