Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	In accordance with the 1990 Children's Television Act (CTA) intended to increase the amount of educational and informational programming for children on television, Eco Company clearly meets the goals of providing children and young teens with a television show that meets CORE requirements of the FCC as follows: 1. Eco Company provides CORE programming in the area of the environment and preservation of the earth's resources. Eco Company explores all aspects of being "green" and understanding how our actions impact the world. The E-Co team learns about global warming by asking questions to discover the truths and myths of the global warming issue. They learn about alternative energies by visiting wind farms and solar installations and discovering new energy technologies currently under development. They learn more about recycling, conservation and organics. The E-Team profiles teens and school organizations who have taken it upon themselves to make a difference, young entrepreneurs who are taking their passion for green to develop new ideas, and new products for a sustainable future. Most importantly, each story and each feature is reported by teens and told from their perspective. Additionally the show provides weekly practical tips that teens, and people of all ages can use in their daily lives. 2. Eco Company uses the technique of peer reporting. The diverse and dynamic cast of teens who make up Eco Company combine their natural curiosity with their enthusiasm to report the informational stories to teens and their families. Each episode employs Eco Company "members" or hosts who conduct interviews of peers and adults, and experience first hand the demonstration and explanation of the topic. 3. Our Eco Company website can be easily accessed by parents and provides a clear description of the program and types of topics covered. It also provides a listing of the weekly episodes and topics aired on broadcast stations through the USA. Advanced notice of future episodes will also be available to parents and consumers by the website. 4. Eco Company has been reviewed by educators in a variety of disciplines who have endorsed the as an educational resource for teens and satisfies the FCC's requirements for "core" Educational and Informational" programming.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	In accordance with the 1990 Children's Television Act (ATC) intended to increase educational and informational programming for children on television, Aqua kids clearly meets the goals of providing children with a television show that meets CORE requirements of the FCC as follows: 1. Aqua Kid website that can be easily accessed by parents and provides a clear description of the types of programming offered. It also provides a listing of when shows are aired on broadcasting stations through the USA. Advanced notice of programming is available to parents and consumers by the website. 2. Aqua Kids provides CORE programming in the area of biology and specifically the ecosystem related to the ocean, its tributaries and estuaries. Children can learn about the resources of the oceans and how protection of oceans is necessary to present and future generations. Not only does the show teach biological topics, but it aims to enrich children's lives by making them aware of future generations, the role they play now, and for generations into the future, with the biggest ecosystem on earth-the oceans. Each episode provides information related to a specific topic and gives an educational approach to understand the topic related to the entire ecosystem of the earth. Each episode is topic specific and focuses on a topic that can be informational in a 30 minute time span to stay in the bounds of a child's attention span. 3. Aqua Kids uses the technique of near peer mentors i.e., children to teach other children. Each episode employs Aqua Kids who ask questions and experience first hand the experience of the topic. For example, children might feed Manatees to experience the graceful, gentle nature of the animal and learn about their biology or dig through piles of silt dredged from the ocean depths to look for shark teeth to understand how shark continually grow new teeth and loose old rows of teeth.
