Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Ruff-Ruff, Tweet, and Dave [RRTD] is a preschool adventure/activity show where the lead characters travel to faraway lands to have adventures with their guide, a hamster named Hatty. Ruff-Ruff, the dog, is the most playful of the three; Tweet is a little bird who loves to fly and get creative with her suggestions; and Dave the Panda has a thing for bananas. RRTD might go to the beach, or the mountains, or to strange lands with pillows everywhere; just the sort of place where imagination and logic come together. The settings are always brightly colored and beautiful. And their transport vehicles are Roly-pods, artful go-carts that fit on a spiral ramp that folds in and out of the Spin-Again, a colorful round spinning top with special compartments designed to anchor each vehicle right on the outside rim during the journey. This program aired on our main digital channel only.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Astroblast, based on the book series by author and illustrator Bob Kolar, is set on a space station in an unknown solar system. Five animal characters and one three-eyed octopus of unknown derivation populate the station. Each episode begins with an everyday conversation or incident that grows into a predicament needing a solution. While these predicaments take place in a fantasy environment, the issues and resolutions resonate for a preschool audience. Through comedy and zippy action, our target audience sees how the characters learn lessons for practical living such as how to keep track of things that belong to you, practice good habits, clean up when you've made a mess, rebound from a failure or an embarrassing incident, or resist the urge to blame others for your mistakes. This program aired on our main digital channel only.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Nina's World is a childhood adventure series, which re-imagines a childhood for the character Nina, host of the Sprout Good Night Show. Nina is a six year old Latina, living in San Antonio Texas. She is exposed to adults and children of many cultures who live in her immediate neighborhood and the mixed use housing complex, where her parents own a bakery downstairs from their apartment. Nina manages to create regular adventures with her friends, her parents and the grown ups too, due to her curiosity and determination to over-reach her abilities in pursuit of her goals. Nina models resilience, as there is not a day where she doesn't reflect on her encounters with good-natured common sense and an ability to rebound after her mistakes. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Noodle and Doodle an instructional series features creative expressions through art and cooking projects around a specific theme. Host Sean drives around a double decker bus fully equipped with art supplies and a kitchen ready for assignment. The projects encourage parent engagement and often feature families working together to make something to display within the child's home. Sean's side kick Doggity is an ever faithful beagle who transforms into an animated character during interstitial trips to a parallel universe set in a kitchen full of prank playing animated characters. The art projects typically promote using recycled materials in order to demonstrate that creativity can transform something intended for one purpose into something that achieves a completely different goal. Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Chica Show features a five year old baby chick that spends her days with her parents in their costume shop the Coop. The shop's one employee Kelly doubles as Chica's nanny and the ensemble is rounded out with Bunji a large floppy eared rabbit and Stitches a straw mannequin that sits in the window. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment , and inter personal behaviors. She and Kelly usually work on the problem through adventure - a fantasy transformation to animation where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development as Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills. This program aired on our main digital channel only.

Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	<p>WLWT airs only Ad Council PSA's during our local commercial time within our core children's programming. These PSA's address children's issues and are targeted at children and parents. On Sunday, June 12, 2016, WLWT on its main digital channel, pre-empted children's programming due to the tragedy that occurred in Orlando, Florida. The following programs were affected: The Chica Show at 11:30am; Noodle & Doodle at 12:00pm and Teen Kids News at 12:30pm. To make up for the pre-emptions WLWT then provided a special hour airing of Teen Kids News on Saturday June 18, 2016 from 1:00-2:00pm; an episode of Teen Kids News on Sunday, June 19, 2016 at 1:00pm and another special hour airing of Teen Kids News on Saturday, June 25, 2016 from 1:00-2:00pm. During second quarter 2016, WLWT aired 5 additional episodes of the regularly scheduled core children's program "Teen Kids News." In each instance that a "Special Edition" of Teen Kids News aired, it was aired back-to-back with another episode of Teen Kids News, which created a series of "mini-marathons" of the program at points throughout the quarter. These additional airings of the program were intended to help increase audience awareness of the program and to further educate and inform teen children viewers about topical, current news events, during a significant election year. These additional core episodes were promoted as special editions and viewers were made aware of the times via crawls and program services. WLWT participated in the annual St. Vincent DePaul /Cincinnati Reds Strike out Hunger Food Drive in June 2016. The drive was a huge success as 7,250 pounds of food was collected which is enough to provide more than 4,800 meals for local families in need. The Food Drive is so important during the summer when children are home from school and parents struggle to provide meals for them.</p>

Origination	Network

Days/Times Program Regularly Scheduled	Saturday/11:00am
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	2 years to 5 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Terrific Trucks is a live-action series that follows the exploits of five self-driving, heavy-duty construction trucks. They include Tork, the dump truck, Stotz, the flatbed, Dug, the digger, Blinker, the mini-digger, and Sparky, the front-end loader. The trucks reside in a fully equipped truck yard/rock quarry and work as a team on various building projects that require planning, collaboration and implementation. Each truck brings specific skills to the group. They get challenging job assignments from Mr. Bill Board, a digital outdoor screen that outlines and diagrams the problem to be solved. By allocating the role each truck will perform during the project, the group merges those unique skills to fulfill their respective assignments. Unexpected problems that could compromise their success-- such as the weather, broken truck parts, or personal conflicts between the trucks--- are addressed and overcome so the job can be completed. This program will air on our main digital channel only.
